June 8, 2024

A special gathering for pastors from Heavenly Japan, who completed advanced education on the theology of True Parents, was successfully held on June 8th at Cheon Jeong Gung. The event was presided over by Tomihiro Tanaka, President of FFWPU-Japan.

During the gathering, True Mother discussed the Heavenly Parent's dream, the history of human salvation, and the mission of the True Parents. She called on the blessed families who were first blessed by the True Parents to fully embrace and execute their responsibilities and missions.

> *She emphasized, "Blessed families must resolve anew and determine to achieve victory. Before the ceremony to welcome the Heavenly Parent next year, you must expand the realm and territory where the Heavenly Parent can work on earth. As pure water, the second and third generations must create a massive wave that crosses the oceans and spreads worldwide. You must participate in this and unite with the only begotten Daughter, the Mother of Peace."*

Following her address, the pastors from Heavenly Japan shared their reflections on the special education on the theology of the True Parents. All participants then sang a song expressing their commitment to unite under True Mother and advance together as one Heavenly Japan.

The event concluded with True Mother taking a commemorative photo with the pastors from Heavenly Japan and blessing all attendees to be exemplary public servants, leading the providence of the substantial Cheon Il Guk and setting an example for humanity.
