Young People Renew Their Commitment Through Testimony and Praise

A special young adult worship service was held at Vienna Church in Austria on October 25, with more than 160 participants joining in person and online. Austria's National Leader David Wurzer emphasized the importance of responding to Heavenly Parent's call with faith.

Through heartfelt testimonies on their journeys of faith and uplifting songs of praise, participants shared their experiences and found deep empathy and grace. The young members reflected on their identity as children of Heavenly Parent and resolved to grow into more mature people of faith.
