Ask For The Power of Prayer!

We are all pioneers and will be pioneers until the whole world is restored to God. A pioneer's task is not an easy one. To fulfill this hard work we need power, wisdom and courage far more than ordinary people have. How can we obtain these? Only through prayer, prayers from the bottom of our hearts! You must pray before you start your daily life and after you close your day's work.

Pray at least 20 minutes at each time for yourself, for those whom you have contacted and will contact, and for God's family scattered in different places. Through powerful prayers alone you can be on the alert for Satan's attack and be able to overcome it. Through powerful prayers alone you can be always ready for the chance to witness. Through earnest prayer alone you will feel the impulse of love toward the people whom God is seeking and will have courage to speak out the truth. From wholehearted prayer alone you will feel your responsibility everyday anew before God. Only through prayer you will feel the urgency of God's Time. The closer you come to God through prayers the more responsible you will feel for your nation and for the whole world.

When such prayer is neglected you will become lax in spirit, lose your zeal for the Divine Cause, and will be a coward for the truth. You will forget your noble responsibility. You will become insensitive to God's urging and people's desperate inner cry. Suffering and sacrifice will make the conditions of restitution for your work when you endure them for the sake of God.

To those who begin their work with powerful prayer, loneliness, self pity and frustration cannot find time to visit. Prayers produce power and effect only when you act as you prayed, otherwise your prayer will be empty and only a lips' prayer in which God is not interested. The highest truth shines forth its genuine light when it is presented humbly. Let us make humility our virtue to win souls to God and prayers the source of our strength.

Young Oon Kim

A Letter From San Jose

Dear Miss Kim:

To begin with, I miss you very much and realize (more and more each day how much I love you and owe you. The only way I can repay even a little, is by giving others what you have given me.

The other night, Satan attacked me very severely and all through the night I could not sleep. I got up and began to ask our Lord to show me why I was going through this severe attack by Satan. He showed me that I should not in any way make any kind of a base whereby Satan can work. I must measure every thing and every work I speak, for idle words are a base for Satan to work.

I find that in speaking to Miss Felse I am learning more and more things I did not see before in the Principles. I am off Sundays and Tuesdays, which I can devote fully to witnessing.

Most of the activities in the churches are discontinued until the Fall but there are a few small groups that are active and I try to take part in them.

Please pray for Miss Vivian Felse, Miss Grace Gilchrist, Kathlene Sapp, Nick Korilors, Helen Coolidge, Mrs. Johns, Mrs. Lola Shearer and Diane Shearer. Please pray for me, I need your prayers so very much.

I cannot think of anything else to say, so until I hear from you, I miss you and can't wait to see you.

Love,

Doris Walder

A Letter From Hayward

Dear Miss Kim and Family:

I wish I could see you all, it seems like we are all so far apart. Really we aren't but it seems that way to me. I have not gone out to any meetings here in Hayward yet. I have been talking to people who live in the same court with me. The people whom I have met here in Hayward don't seem any different than those we've talked to in San Francisco. The Church I visited seemed lifeless as any of the rest.

I experienced much loneliness the first week I was here. But when I am talking about the Principles time goes by so fast I have no time for self pity or anything. I am sorry I can't tell of any great accomplishments in this letter. I can only hope for more and more each day with God's help to get the stone rolling a little faster and a little faster as I go.

I am anxious to hear from everyone.

Love

Patty Pumphrey

A Letter From Berkeley

Arrived in Berkeley on July 10th, got a room in a small rooming house. There are about ten students living here. The man who runs the place hates religions or anything to do with the churches. However when I talked about our movement he wanted to know more about it. I knew he was all ready to fight and argue with me. I began to tell him about the spirit world and this great spiritual movement. When we were through talking he could not fight or argue with me any more. He was most moved and wanted to buy the book for his own use. He has read the book now and wants some day to meet the group, but said he is not ready yet. He has hated God for so long, it is hard for him to change over night.

There are three boys here in the building I have talked to. They are very interested in the spirit world, but are not aware of the Time and the importance of understanding the Divine Principles.

I visited a Lutheran minister. He was acting funny and said he did not have time to talk with me. I had little hope he would read the book. I told him I would only leave it with him three days. Within three days I went to pick it up and I was welcomed into his office. He had read the whole book, and had many questions. The one point in the Principles made him most upset was Jesus not fulfilling his mission. He asked many questions about the New Leader and the spirit world and said he knew nothing about the other side of life. He was most impressed by the part of the book that told of this group being able to talk with Jesus and the people in the high region of the spirit world. He said he would like to meet our group and have his young people attend one of our meetings when they come back from vacation. Please pray for him. His name is Rev. Rought Moellering.

Last night I went to a small group meeting. There was nine young people and their minister. We talked on the first 3 chapters of Genesis. (God surely leads you). I was walking up the street and looked up and there was this sign said meeing tonight 7 o'clock. We talked on the Fall of man and the creation, of course their idea was far from the Principles. After listening to them, I put forth the Principles. Then everyone would get all upset and began to argue with one another. Some would be on my side and say it made sense to them. Of course, the minister was very much against me. I had lots of chances to talk to the group. Afterwards they all wanted to know where I got all my information. The minister came up to me later and admitted he did not know what the real fall of man was or just what God is or how the creation began. They meet every Tuesday evening for these kind of discussions,

I moved to a house in which a lady lives alone. I met a lady from East India, who happend to be in this house. She has been receiving about the New Age and has been seeking about four years. Her name is Enid Lee. She has the book reading but says she wants to hear the tape also. About three days before I met her she had a dream in which she saw me and was talking to me. In her dream she saw me walking with police guards because I was so important, so she wanted to talk to me in the dream. When she saw me for the first time she said she knew I must have something special to give to the people. She wanted to know what it was. We talked a long time. She was very happy to hear of our Leader. She looked at his picture and said "He is the Master of all masters."

I have been active but very little results so far. To Doris, Patty and Galen: My prayer goes out to your cities that a great work will be done in each place. This word will be spread fast, will reach those who are ready and prepare those who are not ready.

There are so many young people here in the fall; there will be around 26,000 college boys and girls. I realize my responsibility and my task will not be easy.

I want to express my gratefulness and wholehearted thanks again to our Leader and to my beloved teacher Miss Kim for setting me free from the hands of Satan and bring unto America this great truth. I will be looking forward to receiving the news from all the other cities. My new address is 485, 65th St. Oakland 9.

Love

Pauline Phillips

Greetings From J. Douglas Burns

We had an excellent opportunity to tell people of many nations and states about the Divine

Principles when the Seventh Day Adventists held their world-wide General Conference here in San Francisco. On one occasion we gave out handbills to the people at the conference. Most of the lay people accepted the handbills.

We are thankful that the work on the house is almost completed. When this physical work is done, more of our time and energy will be devoted to witnessing.

Recently, I was talking to an assistant minister who admitted that the churches were not holding young adults. His solution to the problem was more social activities. However, when I told him about the Principles, he was very interested and wanted to read the Divine Principles. Our prayers with you.

Douglas

News From San Francisco

On July 12th candies and dried persimmons from the table of our Leader on Parents Day arrived from Korea. He wanted to share his food with us, so He sent them to us. We gratefully shared them after our meeting on the 13th of July and sent some to Pauline and Doris.

Robert Burns visited Douglas on the 13th, stayed with us two days and left for Hawaii.

Mr. Leon Levy was ordained by Rev. Lusardi on July 16th in a very beautiful service. After the service we had the pleasure of giving a reception at our house for their guests.

On July 19th George and I visited Pauline in Berkeley and played the tape for a student minister. He scoffed at the word "Revelation".

On July 29th we held a party. Dr. Richard Leeds of the Presbyterian Medical Center spoke on modern medicine. Seventeen people attended and enjoyed the party. We explained the spirit world to Dr. Leeds, who is a member of the Unitarian Church. He was much convinced and wanted to know more about it.

I had the pleasure of speaking at Rev. Lusardi's Church on July 30th. He had put an advertisement in the paper, so 30 people were present. Rev. Levy said that it was their largest crowd for a regular service.

Our friend Bill Morris has visited us week ends and has attended Friday meetings. He is much better and eager to spread our message. However his course doesn't seem to be so easy. I want all of you to pray for him.

There have been Nevil's Meetings and the Seventh Day Adventists World Convention held in San Francisco. We visited both and gave our cards and handbills.

Nevil, the founder, spoke at the Nevil's meeting. He says that Jesus is not a historical figure and also emphasizes the power of man's imagination through which one can produce extra sensory phenomena.

At the Seventh Day Adventists Convention I heard during each meeting both the speakers and delegates say "the coming of the Lord is very near, so let us quickly finish our work". A man from Florida and a woman from Canada came to our house and heard the message. Both of them said that the convention offers nothing and what they teach is false teaching. The convention was held at the Civic Auditorium where 12000 delegates were present.

On Aug. 5th I visited Doris in San Jose. Mr. Lofland kindly drove me down, Miss Felse and her mother and Doris kindly received us and gave us dinner. I spoke to Miss Felse who was disturbed by the part of the message that says Jesus did not fulfill his mission. In the evening five ladies gathered together. By using the tape I explained our message. Many questions were raised of course. We talked until 11:30. I believe they will study the Divine Principles more with the book. After midnight we came back.

On Aug. 8th I visited a Lesbians' Club in city. There were 20 girls present who were not interested in religion. I learned that this group is incorporated in San Francisco and has branch groups in New York, Chicago and Los Angeles. I invited one of the girls who is blind. Although she heard the tape she understood very little. However she said that she would talk to the president of the group about giving me the opportunity to speak to the group.

On Aug. 10th we held another party. Mr. Shim (Chinese) of the U. N. spoke on the topic, Why and How did China turn to Communism? Thirty-two people were present, some of whom were Mr. Shim's friends. He revealed several things that even the newspapers could not report. After his talk I explained our movement, played the preface and invited the guests to hear our message. Most of them were interested to know about it. The refreshments which Francis Kung prepared were exceptionally good and made whole atmosphere real friendly.

On Aug. 12th, we had the pleasure of having Miss Enid Lee with us. She lives in Castro Valley but met Pauline in Berkeley. Through Miss Lee we sent books to new age groups in New York and Ghana, West Africa.

I received a letter from Swami Jyoti of India.

My Dear Blessed Kim:

Dated 6th Aug, 1962

It is after a long time that we contact again. I hope all the brothers and sisters are quite alright and progressing in your mission. Some times I have remembered that sweet and loving stay at your place and often feel interested to know the details of your activities. Nothing much to add this time until I hear from you.

With love and best wishes
Yours in the Lord,
Swami Amar Jyoti

Thirteen men and women came to our house and heard the message this month. Many of them were deeply impressed with the message and asked inquiring questions. I hope they continue to come to our study group.

I hope all of you are busy in witnessing. God will help us when we make the utmost effort.

Young Oon Kim
