In the first week of April (April 2 to 4, 2017), a 3 days' workshop was held in Israel for middle school Blessed Children. Gathered in IPEC center, they held the spring season seminar on the topic: Following True Parents – the way to become True love victors.

A dedicated team of young leaders took them through a series of deeper level of Divine Principle lectures with an emphasis on Purity and preparation for the blessing. The children attended with a serious heart and felt liberated when many of their inner questions were answered.

They concluded by making a new determination for their future life centered on our Heavenly Parent and True Parents.
