We invited guests and friends, who were with us in Vienna on 28 - 29 April for a Korean dinner.

And six of them accepted the invitation.

We wanted to review the festival and talk about it. First we showed the short video that summarizes the festival, and also the PowerPoint with many impressive photos of the whole three days of the events.

Afterwards we enjoyed the dinner prepared by Jae Sook Schmid and Ursula Stöcklein.

Before the dessert, we once again devoted ourselves to the speech of Mother Moon, which was not easy to understand at the festival because of the lack of overlays of the translation.

Excerpts from their speech were presented and all present exchanged views again.
