Faith & Lesson  
(compilation journals)

*Bishop Winny*

Witnessing is my Life, HTM is my Gate pass to Heaven sealed by my Spiritual Children

For me witnessing is not to gain membership for the church and I don't even think it is my duty to do it because of the church. When I learned the painful heart of our Heavenly Parent in losing A/E due to the fall, my mind is naturally focused on comforting God's heart by bringing back His children to His bosom. Witnessing became my lifestyle and through that I myself grow in faith and develop my heart even more. My spiritual children are the source of my strength and power and my spiritual sustenance until this time. When I understood the seriousness of restorative course, I prayed to God to spare my spiritual children from any indemnity and let me handle those instead because I worried that they may not be able to digest the pain and suffering entailed in the course.

I've been in the church for 33 years now. 21 years Fulltime life in the Philippines before I moved to Korea and been 12 years living here as one of the Han-Fil families since 2007. My first 7-year course was spent mostly on one-to-one witnessing and almost all my spiritual children who joined within that 7 year period are really filial children of True Parents with remarkable faith, unwavering commitment and strong sense of responsibility towards the providence. Actually in 1995, almost all my spDaughters (grand-daughters as well) were blessed (others re-blessed) with Koreans and came to Korea to start family. Then because of the continuous Han-Fil providence, majority of my tribe

members were blessed too with Koreans and are residing here although some of them are not active in the church as of this time.

While I was planning to move to Philippines to fulfill my HTM, I dreamed of True Mother on January 4, 2013 for the first time in my life and second was on God's Day of the same year (Feb 10<sup>th</sup>). Her messages has only ONE POINT, we need to restore Korea and I have to do my 430 HTM families here in the Fatherland. Nevertheless from 2013 to 2017

I could only have 12 PMC HanFil families and what is 12 compared to 430 requirement, so I deeply repent for that limitations and I have a shameful heart before heaven because I know what has to be done and yet I couldn't accomplish it.

Last year on True Parents Birthday celebration, I heard the news that nobody could attend the Pledge Service with TP anymore unless one had accomplished the HTM mission. It was a fearful statement and I could feel its seriousness. While I was at Cheongpyeong that time I offered my 1<sup>st</sup> gold wish paper with 2 points in it: "I have to do HTM this year. Settlement of my blessing." The 2<sup>nd</sup> gold wish paper was offered in Busan with the same contents but more determined in tone: "I will do my HTM by July and I have to settle my Blessing."

A week after that the 3<sup>rd</sup> one was not actually the Hyo Jeong wish paper but the "Cheon Jeong Gung Special Prayer" where I laid down my situation to heaven deeply repenting that I thought of doing HTM in the Philippines (by July last year) although True Mother had told me in dreams that I had to do it here in Korea. I cried in desperation because I didn't know where to start and how to begin and I just wanted to get a momentum in my hometown before penetrating Korean society. Secondly it was my first time to pray seriously about my blessing which was at the edge of a seemingly impossible result for 15 years. I asked Heavenly Parent to settle it before 2020 in either good or unfavorable result. I just had a very pure heart talking to Heavenly Parent & True Father at that time without expectation of an answer but I determined that by my own hands and capacity I will do my best to fulfill my responsibilities and solve everything.

Heaven heard my prayers when I was benefitted from my spDaughter Margie 2자구 Samonim couple's 430 HTM Proclamation of Completion last April 2018. Everything became history exactly on the MONTH (July) I declared in the wish paper. When I heard of the 'grace', I cried tears of gratitude because for me this opportunity was so enormous that I would be doing my HTM in Korea,

Dr Hwangbo Gun & Margie (Moon Hyerin) District 2 Governor

my mission country which I thought was an impossible dream already. The entire 5<sup>th</sup> District HanFil coordinators and my spiritual children in Korea and even those in other countries were all mobilized to support me in every way to accomplish it in the given time frame of 2months only.

To find the people for the blessing was a challenge so I sought spiritual support by offering 70 bows for 40days mobilization as my jeongseong in the midst of my physical limitations due to knee problem. For every bent of my knees, there was so much excruciating pain but I never cried for that instead I seriously and sincerely beg the cooperation of the entire spiritual world to really work with me because heaven already gave me the rare opportunity not everybody can have.

(around 150 PMC Han-Fil couples were among the crowd of 280 Filipinos participated in the Blessing occupying even the 2<sup>nd</sup> & 3<sup>rd</sup> floors of Ulsan FFWPU HQ.)

A minimum of 50 only was required of me to declare its completion but I set the goal of 70 couples only to offer to True Father on the 7<sup>th</sup> year of His passing 70 families on the day of our Proclamation of Completion Ceremony (축복완료 선포식). However, around 130 couples joined the crowd of 280 Filipino attendance during my proclamation ceremony.

During those 40days of 70 bowing condition, I promised heaven that I would become a "living testimony" of how true the HJ Wish Paper is, how much heaven answered a sincere prayer and how much God bestow His blessing if we have public mind. I even called out all the Filipino ancestors of the Filipinos living in Korea to bring to me their descendants for the blessing and I promised my ancestors that after I could accomplish this mission, I would buy them Hyo Jeong Won (House of Fortune

from the absolute good ancestors). For every bow I had, I mentioned the couple's names of all those whom we witnessed.

I know the importance of Heavenly Tribal Messiah, its component and my responsibilities until its completion and most of all, the internal requirement of HTM mission and it is not only by my effort alone. I strongly believe that the spirit world should agree and recognize my authority to become their GREAT Ancestor so that they will allow me to bring their children to my Tribe.

The victory of HTM mission is not only the Blessing of 430 families or having 430 couples name list. It lies on the victory of Cain-Abel, the victory in relationship and victory in overcoming heartistic indemnity. Most importantly it lies on our absolute faith to True Parents. This is how I understood HTM mission that's why I tried my best to resolve every bit of challenges and always on guard to any

possible invasion from satan that would block me in fulfilling the internal requirement of HTM mission.

I never thought of just seeking the recognition, receiving the certificate or any award. Honestly, I haven't had such heart. I know the spiritual world, I know God's longing heart for His long lost children and I know that my life is only to attend HP & TP until my last breath on earth.

As early as March last year, I have started gathering my tribe to see to it that not only my spChildren but even my spGC and spGGC are all connected even checking all my 24 spChildren living in different parts of the globe. I have understood the significance of Cheonbowon why True Mother had to erect it before 2020. That's why I have to see to it that I could bring them all with me in my heavenly Book of Life record. In my heart, all those blessed by TP are very precious to me even if they are not going to church anymore.

When I had the unlimited internet access in 2005 I used all means of social media (from Friendster to Yahoo to Facebook) to locate all my tribe members even those who are resting and those who are really not connecting anymore for a long period of time and bring all of them to a reunion of hearts, receive continuous educational materials from me and to make sure we are all aware of each other existence. I'm not a writer but I tried my best to put my testimonies into written form and upload them in blogs so that they can become educational material for my spChildren & tribe members.

Little that I know that Heaven would reward me of the most precious gift and recognition in front of heaven & earth – The CIG 2019 HTM Victor Couple Badge & Medal for having met the standard of World Mission HQ in regards to the fulfillment of the HTM mission until the 7<sup>th</sup> level. Our couple was one among the 43 Korean Families, the 1<sup>st</sup> HanFil couple and the only Awardee from 5<sup>th</sup> District for this year 2019 Foundation Day, (2020 is the next awarding). I was humbled by this recognition because it was never in my imagination and not even in my expectation.

When I received the news from our Regional Pastor on January 21st, and the well-wishes of our District

Governor, I cried non-stop tears of gratitude to heaven. I felt heaven's blessing and love enveloped me that God rewarded my entire 33 years of dedication which I thought was already a past offering. It was an incredible joy in my heart because I don't have any expectation at all.

During my first ever visit to Bonhyangwon during True Father's Seonghwa Anniversary (8.27.18 after my 선포식 in July), I offered a sincere prayer of gratitude for allowing me to become HTM Korea team. And I promised to HP and TF that I would take ownership of Han-Fil Providence in Korea and never worried about us.

That flashed back a painful memory of my mission in KBFD when I worked for HanFil providence in 1999 to 2000 because of a very serious persecution

case while True Parents still expected that Philippines would continue to serve the providence by offering more Philippine sisters to the blessing. Even how humiliating that was to me, I digested all pains and never resented anybody but lifted up to heaven every situation asking heaven to take care of any possible persecution case that might occur again while I wasn't there anymore.

What an amazing grace that when you forgive and forget all those pains but still carry the heart of taking responsibility for the providence with or without position, heaven had recognized my sacrifices and suffering for Han-Fil families because I couldn't imagine the 120 Filipino-Korean couples direct spChildren in my list with all their hundreds Han-Fil PMCs residing all over Korea under my tribe as spGC & spGGC. The greatest blessing of all is that Heaven gave me that AUTHORITY to become the ANCESTOR of all Han-Fil families throughout Korea.

I realized that if we have absolute faith to True Parents, absolute trust in God's words and absolute believe in God's Will, there's always fortune and enormous blessing at the end of the road even though it may seem like an unknown path to take.

HTM is a very spiritual mission. We can't cheat heaven by any false technicalities because HTM is through the investment of love and sincerely taking care of others. HTM is not only blessing the 430 families but it is resolving all issues in our life of faith and all relationships with others. My spiritual children & tribe sealed my 33 years of sincere witnessing and life of overcoming.

I will keep on repeating this statement I had discovered 30 years ago: "If you work for God, God will study for you" because I graduated with flying colors then even though I focused myself in mission more than attending my school. Now again, I will say: "If you work to comfort God, God will work to recognize you".

The Badge, the Medal & the Gate Pass will always be the living testimony of my dedication to comfort God's heart thru taking care of others. This award is not for me alone but for my tribe and a reminder that my mission is not yet over until I could settle them internally in front of heaven. \*\*\*

True Father is really true when he said the number of your spiritual children determines your wealth in heaven. True Mother said if you want to be rich you must do witnessing, witnessing and witnessing. She mentioned in 2015 that if we work for the restoration of Korea thru HTM mission, all family problems will be solved. The principle is true that if we plant the seed of love by sincerely taking care of our spiritual children and unconditionally loving members, fruits are sure to be harvested.
