SunMyung Moon and Dr. Hak Ja Han Moon of FFWPU have initiated for the realization of peace and unification of North and South

Korea. Throughout the 1960's and 1970's, they implemented the Victory Over Communism (VOC) Movement to prevent a war from occurring on the Korean peninsula, and to fortify a national movement to fight against Communism. In addition, in the midst of the Communization of Cambodia, Laos and Vietnam in 1975, they held the "World Rally for Korean Freedom" at the Yeouido Plaza in Seoul, with over 120,000 people in attendance from home and abroad, uniting the Korean people; and thus, presenting the directions and mission location assignments throughout the world.

In the 1990's when the Korean peninsula was heading towards crisis due to the North's nuclear development, they visited the North, and directly met and talked with then-Premier Kim Il-Sung. Following this encounter, they sent previous heads of state from each country associated with "World Summit" to Pyongyang, and demanded for the suspension of nuclear development in North Korea, and for the cooperation surrounding a peace policy for the Korean peninsula.

President Kyeung-Seuk Lu emphasized that "This rally will convey a message of hope for both the vision regarding the future of Korea and the proposal for overcoming domestic and international crises alike, and to establish the grounds for national awareness education in preparation for the approaching era of unification."

If the Atlantic Cultural Sphere era from two-thousand years ago was the era of extortion, then through practicing true love for the sake of others in this Pacific Cultural Sphere age, we can establish 'A world of one family under God.'"

Dr. Han also stated, "The International Association of Parliamentarians for Peace, found in February, 2016, held an inauguration ceremony in the Caucus Room of the Capitol, with a total of three hundred parliamentarians gathered from multiple continents, of which at least eighty are American senators and representatives, just ten months after its founding. We are continuously establishing the International Association of Parliamentarians for Peace and Unification across 120 nations throughout the world." In addition, Dr. Han stated that she "requested for them to completely fulfill their responsibility as tribal messiahs in their respective countries, as the path towards peace, and to become messiahs."

FFWPU-Korea President Kyeung-Seuk Lu is serving as the host for this Vision Rally.

Dr. Han stated how "The hope of both Heavenly Parents and ours is to live in the peaceful unified nation of Korea," and further emphasized, "This hope cannot be realized through political might, religious forces or any sort of ideological power. It can only be resolved through the True Parents."

Sun Myung Moon and Dr. Hak Ja HanMoon's courage and conviction when they proclaimed how the Juche Ideology cannot pioneer the way of the future for our people, in front of then-Premier Kim Il-Sung and top leaders of North Korea in the 1990's." In addition, he stated, "Only by being unified through true love can we all be happy together, and true love is the only path for the survival of our people."

Following this message, Assembly member Seon-Dong Kim stated as part of his congratulatory address, "I express my respect and heart of gratitude, while having seen Rev. Sun Myung Moon and Dr. Hak Ja Han Moon's life course. Under the philosophy of Love Heaven · Love Humankind · Love One's Country, I hope that these Vision Rallies being held by the FFWPU will provide a new hope for our people."

On this day, the participants unanimously adopted four clauses of the Vision Rally declaration, clarified by the following proposals, with the meaning of expressing one's commitment and determination for overcoming domestic and international crises, and for the harmonious unification of the people.

Korea is currently in a dire situation with issues stemming from home and abroad.

From aboard, with continued provocation from North Korea through their 4th and 5th nuclear weapons experiments and frequent missile launches, there has been conflict between Korea, the USA and China surrounding the issue of deploying the THAAD to counteract these experiments and missile launches. President Donald Trump is being conspicuous in abolishing the FTA (free-trade agreement) with Korea and promoting protectionism.

Within Korea itself, its citizens are divided and in conflict with each other over a premature presidential election, with issues stemming from Soon-Sil Choi's political scandal and climate for impeachment, such as the political gap, the verdict made by the Constitutional Court of Korea for the impeachment of then-President Park Geun-Hye, along with the investigation and arrest of her prosecutors. Korean citizens are undergoing turmoil, due to increasing unemployment rates caused by continuing economic recessions, steep spikes in consumption, low economic growth and political polarization.

I then told them, 'The path towards peace is one of fulfilling your responsibility as tribal messiahs upon going back to your respective countries. Become messiahs yourselves.'"

"After hearing how the great Indian poet Rabindranath Tagore wrote, 'In the Golden Age of Asia; Korea was one of its lamp bearers; And that lamp is waiting to be lighted once again; For the illumination of the East,' I thought, 'Korea must become the lamp bearer not only for Asia, but together with various Asian countries, she must open a new era of the Pacific Cultural Sphere, and expand it throughout the world. In

the age of the Pacific Cultural Sphere, we can realize a world of one family under God through the practice of true love.' Let's move forward! Let's move forward and unite and practice true love."

I have come to feel a new sense of hope at this Vision Rally for the harmonious unification of the nation held by the FFWPU under the Rev. Sun Myung Moon's and Hak Ja HanMoon's philosophy of Love God · Love Humankind · Love One's Country. Through this, Korea can overcome its domestic and international crises. I also hope that we can head towards a bright future centering on these future-oriented visions and values."
