48th True God's Day/10th Anniversary, Coronation of God's Kingship

Dr. Peter Kim read the speech given by Father on the occasion of the first True God's Day, Jan.1, 1968

Father's Words

My prayer is your pillar – hold onto every moment. Now every good act you do will benefit your ancestors directly. I never had that blessing but had to carve out the will of God through indemnity.

48th True God's Day/10th Anniversary, Coronation of God's Kingship

Father's Words

Don't hesitate to do God's Will. Adam and Eve disobeyed God's Command. Then Jesus, the second Adam, was sent – and he was crucified. Jesus was killed and the fulfilment of the Kingdom was prolonged. We have to understand this. Now the Second Coming of Christ is upon us. True Parents indemnified the failure of Adam and Eve. Jesus came and was rejected. Father also indemnified this, and this led to the release and liberation of God.

48th True God's Day/10th Anniversary, Coronation of God's Kingship

Father's Words

We must follow the tradition of Hoon Dok Hwe. Those who don't participate in HDH will go to hell naturally. There will be no obstacle, they will just go. Kings, Presidents, whoever they are in this world, if they don't receive the God's Word (HDH), they will be lost to hell. At the time of the Second Advent, you must stick to these words absolutely. You have to stick to these words at the cost of your lives.

The Meaning of the Cheonbok Ceremony

The Cheonbok Ceremony is a ritual for beginning the new heavenly calendar within the blessings of True Parents and the four great saints. Through the Cheonbok Ceremony we can purify ourselves and establish the proper relationship with True Parents. By going beyond religion and race and offering jeongseong and prayer to True Parents we can receive heavenly blessings and resolve to inherit the true love of God and True Parents during the New Year.

The Significance of the Lighting of the Cheonbok Lantern

The ideal and desire for a Second Coming (of the founder of a religion) is manifested in all religions. This desire plus the diversity of culture that we see today serve as the basis for people to receive and welcome the Lord at his Second Advent, the True Parents. The Cheonbok Lantern reflects a variety of such religious rituals, and encapsulates the wish for unity and peace and for all humankind to receive and welcome the True Parents on the occasion of True Parents' Birthday.

The Significance of Cheonbok Holy Salt

Representatives of the major religions combined the soil that was brought from the birthplace of the four great saints and mixed it with Holy Salt. True Parents sanctified this and gave their benediction. This ceremony was to allow participants to inherit Cheonbok Holy Salt. It symbolizes the jeongseong and heavenly fortune of the four great saints centering on True Parents being inherited by each participants family.

What measures can be taken to address the serious issue of starvation? The answer lies in the ocean which is a treasure house of new resources that covers 75% of the earth. The ocean is a treasure house of new raw materials that will revive the earth, which is dying due to pollution of every kind and depletion of resources, and promise mankind a bright future.
