

## On Day Workshop

Valletta, Malta, 23. November 2013

In the past whenever God wanted to send his messengers of truth to Malta, he had to shipwreck them, as was the case of St Paul. Nowadays a scheduled plane ride is all it takes and so it was when Jack Corley came to Malta to deliver a one day workshop on the "Original Divine Principle" and an "Introduction to the Blessing" one day workshop. This was a follow up to a workshop that was held prior to Foundation Day.

We see these workshops as a condition of unity, to bring our community together and realign ourselves with what is most important in life, our relationship with God and True Parents, a reminder of our responsibilities and to feel the power of the "Truth" and how it can set us free from a mind that can so easily be caught up in the busyness of life.

The tenets of our Faith were emphasised, Hoon Dok Hae, Tithing and Witnessing, to receive clarity of thought, to make our offering and to reach out to others, but above all to feel the Joy of life that God wants us to experience.

Delivered with many practical examples, Jack helped us to understand how everything relates to "myself" and to make the Principle my own guideline in life.

The workshop brought together both 1st and 2nd Generations and the Introduction to the Blessing presentations were not just targeting the youth, but was a great reminder for us older members, just what a precious gift that has been given to us from God and that the changing of the blood lineage through the Holy Wine Ceremony and Blessing has changed the destiny of each one of us and allowed children to be born into God's lineage.

We were embraced by the Love of God throughout the weekend and we are always amazed whenever we hear the words of life that we receive so easily, but realise that all this came about because True Parents made the indemnity conditions and the investment of heart, that allowed all this incredible truth to be revealed.

God Bless our True Parents!
