

Peace Embassy Welcomes HJ CheonBo Special Event for the Second Time

Moscow, Peace Embassy, Jack Corley, 21-22 December 2019

From December 21 to 22, 2019, the Headquarters of the Eastern Europe subregion in Moscow, Russia, for the second time welcomed a Hyojeong CheonBo Special Event. A special feature of the workshop was that this time the majority of the participants, 399 people, were blessing their ancestors, with 304 people blessing all 430 generations.

This time the CheonBo seminar in Russia was more widely representative. In total, the seminar was attended by almost 700 people: 438 adults and 245 children of the second generation. As at the last time, the majority of participants were from Russia; 50 people came from Belarus; and the other participants came from Estonia, Latvia, Lithuania, Ukraine, Moldova, Armenia, Georgia, as well as from Poland, the Czech Republic, and even Angola. They were able to receive all possible grace—liberation and blessing of ancestors, and the HJ Offering Ceremony. For older members there was a seminar on matching, blessing and starting family life between the spiritual and physical worlds, and this time five of our respected senior sisters received the Blessing with their spouses in the spiritual world, with whom they were matched during the last workshop in May. And, of course, all the participants very earnestly were cleansing themselves from evil spirits during two *Chanyang yeoksa* sessions.

Chairman of Heavenly Europe Dr. Michael Balcomb and his wife, Fumiko, spoke at the opening ceremony. Dr. Balcomb urged the participants to focus their efforts not only on the liberation and blessing of their ancestors, but also to make this seminar an offering to True Mother, that it would become a condition to give her strength and inspiration.

President of the Eastern Europe subregion Jack Corley with his wife, Renee, warmly welcomed brothers and sisters. Mr. Corley noted the symbolism of the date of the seminar. The second day, December 22, fell on the

winter solstice, when the year has the shortest day and the longest night, after which the days begin to increase, as it symbolizes a new beginning. Mr. Corley also said that True Father is certainly very happy that now, after almost 30 years after True Parents' visit to Moscow, in the former Soviet Union there are so many brothers and sisters, and especially second-generation children, following True Parents.

Lecturer of the European Branch of HJ CheonBo Rev. Tibor Krebsz spoke about the *Chanyang yeoksa* sessions, explaining their internal meaning and demonstrating the practical benefits the session gives. During the *Chanyang yeoksa* session we can get rid of the resentful spirits trapped in our bodies. Their release helps with our own rebirth. He also said that, like a woman in labor in the delivery room, True Mother—the Substantial Holy Spirit—goes through labor pains to give new birth, and not to one child but to all 7.6 billion people of the world.

President of HJ CheonBo in Heavenly Europe Rev. Inpyo Moon captured the hearts of all the participants by his warmth, genuine concern for each brother and sister who personally turned to him, and his lectures in which he openly spoke of his life as a second-generation member, the struggles and challenges that he faced in his life of faith, and especially in his family life. His words touched the members of both the first and second generations.

This time team of the European Branch of HJ CheonBo consisted of four people. To help Mateo Ziko with registration Ms. Christine Wong came from Korea.

Rev. Inpyo Moon and Tibor Krebsz invested special efforts in training the *Chanyang* team consisting of second-generation children and CARP members. This time, the team had brothers and sisters from different cities of Russia, not only from Moscow. Someone came from a city where only a few blessed families live, no Sunday School, and no formal education for the second generation. But all the kids took their mission very seriously and did it enthusiastically. They helped create an amazingly high spirit during the *Chanyang* sessions!

Whenever the HJ CheonBo Special Event takes place, this venue becomes an extension of the HJ CheonBo training center in Korea. It was felt not only in the prayer room of the Peace Embassy on the second floor, which was a continuation of the *Jeong Shim Won* in Korea but also in the main hall. Upon entering the room, Rev. Inpyo Moon and his assistant Christine Wong felt as if they were in the Training Center in Korea. Such an impression came because of the big picture of Heaven in Heaven at the back of the stage, which had been especially prepared for this seminar.

In the final part of the seminar, at the Victory Celebration, the second-generation children demonstrated their skills of singing and dancing in a lively performance. The Sunday Service Choir specially prepared for this event a song made famous by Andrea Bocelli, *Prayer*. The concert ended with the dance to the Korean song *Miro'putcho* (rough translation: "push forward"), which True Mother is very fond of.

Some reflections

One. "During this workshop in Moscow I experienced a grace of the CheonBo providence concerning the issue of witnessing to my friend. Many years ago, when I was about to receive the Blessing, I tried to tell her about the Blessing, explaining to her that I was going to receive the matching. That time her reaction was negative. Now, after 15 years have passed, after she knew about our experiences, I just simply invited her to come to Moscow to the CheonBo workshop this time. And, as she told me, everything happened in such a way that she could participate here, because she felt the force that pushed her to this workshop. She started to think about the meaning of the Blessing, about the possibility for her to receive the Blessing from True Parents. Today, here she for the first time knew that True Parents were the Messiah, the Second Advent.

For me it is a miracle. I understand that my friend without any additional preparations, without deep care about her, without any spiritual education or education in Divine Principle, has accepted everything she got during this workshop. This was possible on the foundation of True Parents' victory and because we have already blessed our ancestors till 387 generations.

I am happy to discover and open a new witnessing way for me. That it is enough just to invite people to the CheonBo workshop, and there, through participation in the workshop, they can feel the foundation of True Parents."

Two. "I am not a spiritually open person, but even for me it becomes clear that the spirit world is real and influences us to a great degree. Today my heart started to beat more strongly, in a greater alliance with the heart of our Heavenly Parent. I keep very carefully in my memory my meetings with God, my tears shed for His suffering. So today one new record about my wonderful experience with God and our True Parents has appeared in the chronicles of my heart. In that event there is always a special spirit which is created by our brothers and sisters in the physical and spiritual worlds. Every event has its own unique spirit, and it causes different emotions and feelings. I am grateful to my Creator for that variety of emotions. I am happy that I was able to pray sincerely, I am happy that I became more close to God, I am happy to feel God's love through brothers and sisters, and I am happy to give my love in return."

Three. "When I heard that we need to invite new people to the CheonBo workshop, even non-members, I was very inspired and decided to invite my mom. She is not a member and is neutral toward our movement, toward me being its member, and doesn't pay much attention to it. But several months before the workshop I declared to my mother that our couple are the Heavenly Tribal Messiahs for our tribe. From that time I noticed that my mother started to listen to me more attentively when I told her something about God and True Parents.

Before the CheonBo workshop I was making a 21-day condition for the victory of the workshop and for my mother to participate in it. I am glad that everything came true. Three generations of women of our family participated in this workshop – my mother, me and my daughter. My mother was interested in information about the spiritual world, because she was already interested in paranormal phenomena and wanted to develop her own spiritual abilities. She participated in all the *Chanyang* sessions, prayed, was making bows to True Parents, and took part in the *Mansei*; moreover, she did all this with joy and desire that surprised me a lot. Also, I was surprised that she accepted all the information from lectures, although before it had been difficult for her to accept our teachings. At the end she asked me to give her a photo of True Parents, so I gave her the photo I was usually carrying in my wallet.

Thank you to God and to everybody who worked for the victory of this workshop!"

Four. "Before the workshop, when I started to do a condition of 50 bows for ancestors' liberation, on the very first day I saw some gray and white silhouettes around me making bows together with me. First I thought that it was the ancestors for whom I was making my condition. Then I felt that these were ancestors from 49 already liberated generations. I started to cheer them: "Go on! Go on! Let's help our other ancestors."

During the first *Chanyang* session, when we were praying while singing *Tan Shim Ga*, black and gray smoke was rising up from me and from other participants as well. It meant that evil spirits could leave our bodies. Such a great grace from True Parents, such a wonderful opportunity to liberate and bless ancestors.”

Five. “The other separate discovery for me was the feeling after the first and only *Chanyang* session on the first day. I physically felt in my body that I was the object of God’s love. Through that feeling I realized what kind of experiences should move blessed families to become Heavenly Tribal Messiahs: exactly this amazing, all-encompassing and light sensation that you feel not only with all your heart but with all your body. And through that you realize the value of physical life.

My hostility, accumulated during recent years toward many close to me leaders and brothers and sisters, has vanished. Being directed by a non-conflict spirit during this workshop, I reconciled with all those people with whom I wanted to do so for a long time. I felt that when a person’s mind gains the freedom that was lost, it transforms that person into a quick person, because the love of God starts to lead him. During the *Chanyang* session I felt when repentance started to liberate me and reconcile me with myself. I started to be able to understand the Holy Song, and it started to sound for me like my personal pledge to God.

I feel that True Mother’s concern is the desire to give to people that awakened heart.”
