October 31, 2015

Clergy and guests gathered in Atlanta, Georgia on Saturday, October 31, 2015 for an American Clergy Leadership Conference (ACLC) event titled, “Rebuilding the Family: Powerful Insights in the Genesis Story.”

Keynote speaker, Dr. Sinclair Grey, introduced the theme by reviewing four main points of action that led to Adam and Eve’s disobedience of God, and what that means for families in the modern age.

Dr. Grey led pastors in reading relevant bible verses, and turned to the audience for insights and feedback. This led to a truly dynamic spirit. “I have never heard anything on this subject like this before,” said one participant. “What a wake up. Thank God I am connected to this group.”

Guests were very attentive and asked many relevant questions. The interactions made the event highly engaging for all those involved, with many remaining for more than an hour after the close of the program to discuss the topic further. Participants look forward to similar events in the future, as one stated, “I thoroughly enjoyed this and I will definitely look forward to coming again.”
