 April 14, 2018

International CARP will be visiting Japan (three days), Korea Chung Pyung Heaven and Earth Training Centre (ten days) and Japan (seven days) prior to a two week service project in Kyushu (south Japan).

World CARP Summer this year we will joint service project with USA, UK, EU, and Japanese CARP. We will visit Tokyo, Korea (nine days at Chung Pyung), and visit Kyoto, Hiroshima, Fukuoka and do a two week service project in Kumamoto (Teaching English).

The Kumamoto earthquakes (7 scale), n the 16th April 2016, had huge impact and lost many families and houses, this month, one year later, still many people live in temporary housing and need psychological care.

Kyushu CARP (south part of Japan) has requested for us to come again this year and teach English to Japanese school children who were affected by the Kumamoto earthquakes. Local CARP members will join the project. The Kumamoto area children are really looking forward to learning English from us.

We would like to ask for a big and small donation for JP Project

I have been appealing for 10 years that we should make a strong CARP foundation, the young people are future leaders. We have sent young people to Japan, Los Angeles USA, Africa and Alaska. I really think young people should see and learn from different cultures and experience God's providence in the world. We should invest in our youth more than at present. This JP project started in 2010 and since then many European Unificationist young people went to Japan. They are warmly welcomed and looked after with a lot of love by CARP members and Japanese "Uncles and Aunties". This year we join with USA CARP, please read attached letter from Mrs Hiraki LA CARP
