

## Today we are once again able to receive our True Mother in Las Vegas

Ken Doo  
May 28, 2015

Today with much happiness and heartfelt longing we are once again able to receive our precious True Mother here in Las Vegas. We are so grateful to our True Mother for her incredibly hard work, constant encouragement and relentless call to action.

After a wonderful and victorious speaking tour in Europe and beautiful welcome and celebration in New York, now we will commemorate together with True Mother the Grand Opening of the International Peace Education Center, True Fathers last great work in an unimaginable legacy bequeathed to us all.

This historic event will start on May 28th with the sanctification of the building and a ribbon cutting ceremony and on May 30th with the celebration of True Fathers 1000-Day Memorial and Peace Road world bicycle marathon kick-off. Hundreds of guests from overseas and across the nation will join in the events and share in the dedication and offering of this beautiful building to educate and thereby further establish the roots of true lasting world peace.

We are all so grateful to the families who contributed financially and with their prayers for the successful completion of this Education Center. This long awaited moment exemplifies the genuine unity, love and sacrificial heart of offering that so many families the world over displayed with their sincerest donations large and small.
