On September 28, we had a CARP band launching performance on UNLV campus Free Speech Zone, supported by LV FC members and Japanese missionaries. Their goal is to create a band with a group of young people who are aligned with True Parents' vision and love. Angelica Moraes and Ilya Hack took the lead, joined by our guest and singer Bridgett. They are looking for more people to resonate with the goal to give an impact to our society with heavenly culture thru music.
