On March 15th, it was a pleasure to visit Ocean Providence and see our precious brothers and sisters who are diligently work for God's providence.

The Ocean Providence general manager, Mr. Matsuda said that these days, sea food distribution business is very difficult compared from 1970 to 90.

Nowadays there are many competitors who distribute at a lower cost.

However, Las Vegas Ocean Providence is a leading company in premium seafood distribution in the Las Vegas area.

The company is providing "Sushi Grade" premium seafood to Restaurants and Retail stores.

Ocean Providence Las Vegas serves their customers with high quality products. They start work at 2:30a.m. till 3:00 p.m.

I was so impressed to see our brothers and sisters fulfilling their mission.

I pray for their business and each one of our brothers and sister's personal victory
