

## What I learned at the Las Vegas Family Church's the introduction to the Blessing

Ken Doo  
June 4, 2017

On June 4, 2017, I was so excited to attend “Introduction to the Blessing” to learn more clearly the meaning of the Blessing. My reason for attending was to find ways to invite people from the community to attend the 430 couple on Sept. 7, 2017. While I have attended many seminars on the “Fall of Man”, yesterday’s lecture by Rev. Compton was especially significant because of where I am in my own personal life journey having just started a new relationship. It was a very personal experience sharing with Dr. Kim, Rev. Doo, Rev. Compton, Steve Jaris, Mrs. Mary Hida, Mrs. Arias, Japanese missionaries and my spiritual daughter D. Schmidt. Listening to the lives of blessed couples who are so very peaceful and happy is indeed an inspiration.

-Katherine Duncan-

What did I take away from the introduction to the Blessing presentation.

First, Thank you so much for the opportunity to participate in such an amazing workshop!

Learning about the blessing for me means total unity within family centered on god and his providence. I learned through the workshop the reason behind Rev Sun Myung Moon’s ideology and how important it is to structure our own individual true self based on the ideal family.

I wish to participate in the blessing someday because I believe that such a family exists and that I would be a better person for myself and others if I could just have the support and love from a man with the same belief.

Again, Thank you so much for this enlightening introduction and may you be blessed many years to come!

Respectfully,  
-D. Schmidt-
