Newsletter Issue No. 842

Welcome to LVFC HD Newsletter!

31 Your conscience knows the way to life. You like pleasant aromas, don't you? Why do you like them? It is because your sense of smell is designed to appreciate good fragrances. It is the same with your heart and mind. Your heart senses good just as your nose senses fragrance. This is why you can be spontaneously happy. No one needs to advertise what is inherently good. This is why you are happy when you are on the way here, and why you miss me when you do not see me. This is why in the modern world people groan in their heart, "I wish I could go to the original homeland!" This desire swells within. Even though we do not know why or what it is exactly, our heart seeks the path leading to our original homeland. Why do our mind and heart want to go to that original homeland? It is because our father and mother, our brothers and sisters, our relatives and our nation are there. It is our promised land and our place of Sabbath rest. That is why our heart yearns for that original homeland. (155-036,19641006)
