August 10, 2019

8/10/19 Shine City Project volunteered at the Hands of Hope Community Food Pantry which is a part of Catholic Charities of Southern Nevada.

Their mission is to "Give help and hope to those in need regardless of race, religion or creed".

Catholic Charities of Southern Nevada is able to serve 4200 people in need every day with the help of volunteers!

This time, the Shine City members Andres and Torao made bags of various canned foods which filled up a whole crate full.

These bags of food were given out to those families and people in need.

Even though we were only able to bring two people to this service project, we enjoyed the task that we were given and left with overwhelming joy knowing that we were able to serve people.
