

Help us commemorated the 40th anniversary of The Washington Monument Rally

Matthew Huish
September 30, 2016

As we have recently commemorated the 40th anniversary of The Washington Monument Rally, we at the Legacy Project* want to commemorate and capture this moment in time by recording and publishing the stories of those who experienced, took part and contributed to this historic event!

Were you there? Do you remember that moment? Get in touch and share your experience – we'd love to make it a memory for everyone.

Please email a response to communications@um-uk.org including a telephone number we can reach you on and a short summary of the moment you would like to share.

We hope to hear from you soon!

Warmest wishes,

Legacy Project team

*The Legacy Project is an informal group of passionate second generation (Jonathan Bateman, Elisa Brann and David Schröder) who are collecting precious stories from members in the hopes of preserving first-hand memories that future generations can experience for themselves.
