Space is limited: first come first served!

By special invitation of True Mother

December 28 – January 21, 2018

Our team in Senegal will participate in two weeks of social outreach and service, before joining and helping to staff the Summit where True Mother will speak. During our time in Senegal, we will be active at both ends of society, working side by side with young Africans, Christians, Muslims and Unificationists. We will be volunteering in poor rural neighborhoods one week, and meeting heads of states in the nation's top conference center the next. There will be outreach at the University of Dakar, one of Africa's best, and work at Gorée Island, a poignant memorial to the slave trade.
