

True Father: When you really live the Divine Principle, your personality has a heart of love!

Anyonghaseyo, dear brothers and sisters!

Here again an inspiration, based on the words of True Father and True Mother:

True Father: "When you really live and consummate the Divine Principle, your personality has a heart of love." [1]

Living the Diving Principle makes our love and heart grow. It transforms our personality into a divine personality. By living the Divine Principle we inherit the heart of God.

The question however is what it means to live the Divine Principle. Living the Divine Principle must have something to do with practicing divine love. Otherwise it would not lead to a divine personality with the heart of God. Otherwise it would not create Heaven:

True Father: "What is heaven? Heaven is created by those people who love here on earth with unselfishness and an absolute, God-centered love. This is the most basic principle, and all other principles you learn are the expansion of this basic truth."

Heaven can only be created by people who practice a God-centered love. Only God centered love can do it. Nothing else. And that is because Heaven is the world of God centered love, perfect love. Heaven starts with and is being established by us practicing a God-like love:

True Father: "What is heaven? Heaven starts by loving another human being the way God does." [2]

This applies of course not only to ONE person but to everyone we come in contact with. We need to treat them all as God would do, respecting everyone, being kind to everyone, loving everyone, embracing everyone, without exception. And not expecting anything in return from the ones we have invested into. Investing and forgetting, and investing again. Forever.

Such a life is a true life, leading to happiness and prosperity, on all levels. And of course, it leads to our personality becoming more and more God-like. It makes our personality more and more loving and attractive:

True Father: "If you are becoming the consummation of the love of God, then you are becoming a perfected man [woman], and those who come near you will melt in the spring atmosphere of that love. Then sadness, hardship and pain will melt away without reason." [3]

We will become like purifying water:

True Mother: "I earnestly pray you will all be as true blessed families such that the peace of your families and yourselves will be as pure water purifying your surroundings." [19.2.15]

Indeed, the love and peace radiating from our hearts will bring purification wherever we go!

And as we increasingly become the embodiments of the love of God, we can inspire other people to also walk that path. That is the way the true love movement, our True Parents have started, will conquer the earth. It will break down all barriers, between people, between nations, between religions, between cultures, between races etc.

But first of all we need to become people of divine love who are not looking to GET love but to GIVE love to everyone who comes across our way:

True Father: "Don't look at things selfishly, but with a desire to give love. Look upon a person who hates you with love, and eventually he will change. Begin sending out messages of love to those around." [4]

Our desire should always be to invest heart and love. By living in such a way we can become powerful dynamos of true love:

True Father: "When you live with the heart of God and the heart of parents, constructive and creative power is generated... we can truly become dynamos to create a new world culture." [5]

Indeed, we can become inheritors of God's heart, we can break down all barriers, we can attract God's blessing and we can become the most happy people of the world.

Those who have started on this journey, will certainly not be the same again. They will certainly not want to go back to their former lives, but want to push forward on the way of true life and true love. Nothing is more rewarding than such a life.

And on top of that we can always ask True Father, Heung Jin Nim and Jesus for guidance and support on this path. That will truly make a difference.

Love from Bruno. Happy Christmas!
