

**Report on the New York Event
and Farewell Remarks of Special Emissaries
No Hi Pak and Lan Young Moon
at Paris Region Communities Joint Sunday Service
2017. 7. 30, Chamarande Training Center**

Dear beloved leaders, blessed couples, and second generations of the Paris Region Communities,

This morning we are gathered here for the last Sunday Service of month of July. How have you all been? Bonjour!

Dr. Moon and I have been away for the last almost two weeks, called by True Mother to attend 'Hope for America: Vision 2020 Victory Spearhead Rally' held at the Madison Square Garden in New York, USA, on 15th July.

Afterwards, we also attended the Leaders Meeting centering our beloved True Mother before on 17th July.

This Rally, for our members was the 'Hope for America: Vision 2020 Victory Spearhead Rally'. But for outsiders, it was a 'Rally of Interfaith, Holy Spirit Awakening' centered on more than 100 Christian churches and many other religions such as Jewish Communities, Buddhism, Muslims and Hinduism, even Indian religion leaders in New York area.

In that Rally, True Mother gave a speech under the slogan, 'Peace Starts with Me!'

True Mother chose this 'Madison Square Garden' as the venue for this Rally, because she wanted personally to deliver her speech at the very place where, 43 years ago, True Father gave his most important speech in the history of the Unification Movement in America.

On September 18, 1974, at a time when he was being opposed and persecuted by Christianity, True Father delivered a speech entitled 'The New Future of Christianity' before an audience of 30,000 people.

Having indemnified the suffering of True Father, who spoke at the time with a desperate strength, True Mother wanted to proclaim the manifestation of True Parents and the advent of the New Era of 'Cheon Il Guk', 43 years later on July 15, 2017.

True Mother appeared on stage as the singing of hallelujah by the '3,000 Peace Choir' rang out across the hall where religious believers including

20,000 Christians were gathered together in inter-religious harmony.

I'm sure many of you watched the event via live broadcasting on Peace TV, and saw that it was truly a moving, heartwarming and magnificent scene filled with the holy spirit. Indeed, it was True Mother's most remarkable victory in this year.

In November of last year, True Mother inaugurated IAPP in America at the Caucus Room in the US Senate, in front of more than eighty American Senators and Representatives as well as IAPP members from other 60 countries around the world.

At the time, she proclaimed the manifestation of True Parents and declared that America should start serving God again.

In my opinion, this Rally, held on such a foundation, was all the more meaningful because Christianity in America came together to attend True Parents, especially True Mother.

In the report, Bishop Ki-Hoon Kim, President of the Unification Movement in America stated that hosting a rally under the leadership of True Parents, with an audience of more than 20,000 people, had been unimaginable initially.

He then testified that, after absolutely obeying True Mother's words and uniting completely as one with her, prepared people of righteousness appeared, miracles were wrought, and finally the unification movement of USA was able to achieve this incredible result.

Recently we also witnessed the victory of the 'Youths and Students for Peace Rally' held on 13th Junet in Thailand, Asia, which was led by True Mother. That event especially was actively supported by the Thai government and particularly the Ministry of Education, and attended by over 20,000 people.

Thailand is a country that had persecuted our Church for two decades and imprisoned our leaders for more than two years. However, with heavenly blessings on our side and with our leaders united as one with True Mother, miracles were achieved.

These events recently held, have shown us actual proofs that, even when something seems impossible, nothing remains unachievable when all members, especially the young second generations, unite as one, centering on True Mother.

Dear Brothers and Sisters

I haven't come before you today just to give a report on the victory of the Rally in America.

In fact, I stand here today with a different heart from when I usually come here to meet you.

In late June, True Mother summoned leaders of European and Northeastern continents to a three-day special meeting at Cheon Jeong Gung, Cheongpyeong.

She asked all national leaders to give presentations on their countries' activities and strategies for the victory of Vision 2020, and gave encouragement to the leaders of the two continents with even more concern and love.

In her closing address, she spoke of the providential mission of Christianity spanning the 2,000-year history of Europe.

She also expressed her grave concerns, harbored deep in her heart in her sleepless nights, about the mission we, blessed families need to fulfill in this era which True Parents are on earth.

She then emphasized that the present situation in Europe cannot do anything at this point in time, when the final chapter in the victory of Vision 2020 is only two and a half years away.

Therefore, she said that she was planning to reorganize the work structure in the European continent. She then added that the three Special Emissaries to Europe will be asked to end their current mission in Europe and to take responsibility for world-level missions, and ordered them to come home.

She also said that the actual details of the work structure re-organization and personnel changes will be announced after the American rally of 15th July.

After the American Rally ended on the 15th, victory celebrations were held on the 16th, and on the 17th True Mother called leaders to East Garden.

She spoke to them about the conclusion of the Rally, and announced the vastly expansive re-organization of our Movement structure for the future direction of our work.

Until now, continents were divided geologically. This time, however, she has broken the

mold and re-organized them based on the synergy effect they can create by mutual cooperation.

Therefore, the European continent will be integrated with the Northeastern continent and the Middle East region as a greater continent, and it will be divided into sub six continents of east, west, south, north and central Europe and the middle east, each continent with a considerable level of continent autonomy.

She also said that she will establish the position of the Regional Group Chairman of Eurasia and the Middle East, to mediate between the six sub continents, so they can mutually work and cooperate with one another.

And she appointed Dr. Michael Balcomb, President of FFWPU USA, to fill the position as the Regional Group Chairman.

Dr. Michael Balcomb will be starting his new mission in Europe with a truly tremendous amount of responsibility.

True Mother also stressed the importance of UPF and WFWP as providential organizations in the work for witnessing environment creation. She particularly emphasized that, by organizing IAPP in every nation, UPF can realize the ideal of “Abel UN” advocated by True Father, and appointed Dr. Otsuka Katsumi, president of the Northeastern continent, as the President of UPF in Greater Europe continent.

True Mother said that Dr. Otsuka of UPF should work together with Jacques Marion of Europe, Konstantin Krylov of the Northeastern continent, and Umberto Angelucci of the Middle East, and focus on inaugurating IAPP in every nation.

She added that IAPP must be established in 120 nations across the world by the end of this year.

I personally think that the new re-organization of the European continent is a great hope and also a great challenge to Europe. But

when I think about True Mother, who loses sleep worrying and praying for Europe to be reborn, my heart grows heavy.

My dear Brothers and Sisters in French movement,

The victory of the American Rally under True Mother’s leadership has shown me that, in addition to moving Korea, Japan and Asia with her strong driving force, True Mother has now begun to make move America, which had been deemed difficult.

Another positive thing beside this rally is that there is a great hope that Africa is going to be moved on a large scale. Important religious leaders from Senegal, Zimbabwe and South Africa were specially invited to attend the rally, and at the dinner True Mother gave on the 16th at East Garden, they gave her great hope.

I believe that, before the end of this year, True Mother is going to visit Senegal, Africa and will achieve historic victory once again.

All things considered, True Mother cannot help but cherish great expectations and hopes for Europe, the old center of Christian history, to rise once again.

Concluding with these words, Dr. Moon and I would like to express our special gratitude to the French members today.

As per True Mother’s command, our mission of the past three years as Special Emissaries to Europe has drawn to an end, and we will be returning to Korea to begin our new mission as International Special Itinerary Workers.

During the past one and a half years of our stay in Orsay, President Moulinet, Mrs. Hisako and Mrs. Hanna have shown us such kindness and care, and all other members have given us so much love, that we feel indebted to you as we head back home, Korea.

True Mother had specifically commanded us to support France, a major providential nation in Europe, and Albania, the only strategic nation in Europe.

However, we feel that we haven’t been of much help to you, and that we haven’t contributed much to your movement in France, and so our hearts are filled with regrets so much as we leave you.

In the past before we came to Europe, we hadn’t had much occasion to stay close to Europe, and so Europe including France had been a far away and unfamiliar place to us.

However, during the last three years we worked in Europe, we were deeply touched by the attitude of absolute faith of European mem-

bers, and moved by the way you continued to carry out activities in various methods despite difficult circumstances.

And when we looked upon the many second generations growing up into intelligent adults, we grew hope. I hope many brilliant young generations prepare for new leadership training and some time in future they can take over our movement and make it prosper.

I am sure you all have pride and hope about the providential achievements which was given by True Parents. If you unite with True Parents you can achieve much more and you can live better life in spiritually.

And now, Europe is no longer a faraway place to us; rather, it has become our closest hometown of heart. France, in particular, has become our second homeland.

Our life of faith has grown so rich here, and we are honored to be able to maintain relationships with the excellent leaders and members of Europe for the rest of our lives.

We know that all this is not possible to thank to your love, and we want to express our deep gratitude to each and every one of you.

Henceforth, whenever and wherever it may be, we will wait to hear good news from Europe, and we will always support you. We hope that you will consider us as “European agents in Korea” and contact us freely.

We leave for Korea tomorrow with full of wonderful memories and many thanks.

Thank you very much. Merci beaucoup!
