

### 3 Day Chicago GPA Workshop

Roland Platt  
October 22, 2012

From October 15th to the 17th, the fundraising module attended a workshop in Chicago Illinois to prepare for their 21 day condition. The first day was set aside to give the group bonding timing by paint balling together. The next day GPA members were given time to reflect and also set goals for their fundraising condition. On the 17th, guidance on the purpose of fundraising was given to conclude their workshop. “I really appreciated the Chicago Workshop because it helped me make determinations and refocus for this module. I especially appreciated the commitment ceremony where we each announced our personal commitments and things we promise to accomplish for Heavenly Father and True Parents. Thank you so much,” A first year participant shared. Early morning on the 18th, teams drove off traveling to their destinations starting their pre-condition lasting five days, that lead up to the 21 day “competition” condition on October 22nd.
