

# Dr. Kwang-Kee Sa's Visit to Madrid

Madrid, Spain, 13. – 15. January 2015

**O**n January 13th at midday, Dr Sa arrived from Paris to Madrid to meet our community, he actually spent a lot of time to listen and to share with brothers and sisters and different leaders.

After lunch he met with a small group of second generation. He then had dinner with the National Leader's couple. On Wednesday morning he met with UPF Secretary General , Armando and with WFWP President, Marcia to hear about their activities and the way we are working here. We then had a meeting with the church leaders in Madrid. After a nice lunch prepared by our 2nd generation sisters Yoshiko and Beatriz, in the afternoon, there was a general meeting attended by about 25 members.

Dr. Sa, after giving a brief summary of what was transmitted to us in June last year, explained about the providential formula course. Basically he said that after the fall, God wants to send the Messiah, on the foundation of faith and substantial set by the central figures. The coming of the Messiah Jesus was prolonged due to continuous failures. Also each of us should establish its own foundation to receive the Messiah, meaning the blessing. Before receiving the

blessing we must restore three spiritual children, who represent the three archangels, and tall things of creation. .

The way to do this is practicing true love, highest level is to give and forget, giving and receiving, receiving and giving, receiving and remember, and receiving and forget. We must always take care of the spiritual children, not just until they have accepted the True Parents. After receiving the blessing, we must restore our home church as Cain-type tribe and our family and tribe of Abel type, thus fulfilling the tribal messiah. Finally we join the Royal Family. True Parents have three types of children; we blessed first generation, our children, the second generation and their direct children, the True Children.

We are really grateful for the Dr Sa's visit in Madrid. He has worked for so many years and from an early age so close to True Parents and he can give us a clear understanding of how human beings can be recreated. In our daily life it's sometimes easy to forget about how we can accomplish this responsibility that God gave to Adam and Eve and it's necessary for us to always refresh this deep understanding.
