

## *Call for Prayers for Peace And Healing*

Angelika Selle  
March 25, 2016

Dear friends and families,

In light of the appalling terrorist attacks on the Brussels International Airport and city subway on March 22, Women's Federation for World Peace USA is calling for prayers for peace and healing.

Our hearts go out to the 34 innocent slain victims, the hundreds of others injured, and all their families -- and also to the terrorists and their enablers, tragic dupes of hatred and a warped theology - - with prayers that conflict may be resolved using compassionate dialogue and compromise rather than violence.

We would like to encourage all people of faith to not be discouraged in light of these events, but rather to redouble our efforts to undertake acts of selfless goodness and kindness on a daily basis.

WFWP's co-founders have emphasized for the last five decades that peace can come only when human beings adopt a lifestyle of living for the sake of others and of "Living by the Logic of Love," which is the WFWP motto.

You and I can and must be the beginning of that!

May the innocent souls rest in peace, and may their dying not have been in vain!

Angelika Selle
