Washington Monument Rally Invitation

Dear friends,

Women's Federation for World Peace USA cordially invites you to the 40th Anniversary of our co-founder Rev. Sun Myung Moon's historical speech at the Washington Monument on September 18, 1976, in celebration of America's bicentennial.

During his speech he declared in front of 300,000 people, ***"The United States of America, transcending race and nationality, is already a model of the unified world. She must realize that the abundant blessings which God has been pouring upon this land are not just for America, but are for the children of God throughout the world."***

He believed America had been singularly blessed by God to be a strong and moral country where God could dwell, and would lead the world through service. He expressed that ***"this is the time for awakening. America must accept her global responsibility... America must rise up."***

When it comes to current politics, racial tensions, and the breakdown of the family, now more than ever America needs to rise up. Join us in making this world of peace, love, and service a reality. RSVP your attendance now at americaisgodshope.org/.
