

## Appreciating our Founders on Their Birthday

February 25, 2017

Dear friends,

This year's birthday celebration for Dr. Hak Ja Han Moon and her late husband Rev. Dr. Sun Myung Moon in Korea was especially touching for me and many others. At the celebration, Mrs. Moon shared a traditional Korean meal with all 25,000 in the stadium, which was personally selected based on her and her husband's favorite foods with hot seaweed soup.

In addition to the meal, she shared a very personal letter with all participants (see below) which truly reflects essence of who they are, and the heart with which they have been pursuing their work for peace for more than 5 decades. Please take the time to read it.

Women's Federation for World Peace, inspired by their example and under their guidance, feels very honored to have been working together with our Co-founders for the last 25 years. Many of us were able to witness their incredible passion and sacrifice for the sake of peace, and today would like to take the opportunity to give back to them.

We invite you to show your appreciation on this special occasion, by making a donation in their honor. (*see link below*) You are welcome to add a special message to the Co-founders in the comment section to accompany your gift.

Thank you so much for being a supporter and partner of WFWP, and standing for the values and lifestyle of *Living by the Logic of Love*.

Sincerely,

Angelika Selle

*Beloved Blessed Families,*

Fifty-seven years ago, right after our Holy Wedding, True Father and I sat before our first wedding meal; I vividly remember the royal table being the color of blooming Susuki Grass. Heavenly Parent's profound heart and emotions could be seen in Father's eyes and he was about to burst into tears the size of snowflakes.

As we walked the path of True Parents, Father and I have been served countless meals; yet, each time we have sat at a meal table, our purpose has remained the same: fulfill the duties of the filial heart before Heavenly Parent, save all humanity, and realize a world of peace. This is why whether eating boiled barley for three years during desperate times, or touring two nations at breakneck pace in one day, or even having to endure an entire day with a single gulp of water, Father and I have never worried. To us, everything has been gratitude, everything has been joy.

Today, on the occasion of True Parents' birthday, we are so happy and privileged to host this festival where you can share a meal we specially prepared for you. You are true children born with Heaven's lineage through the profound tears and heart of True Parents. True Father who is in Heaven and I will always, always love you all. More than anything else, we shall never forget the heartfelt tears and sweat you have shed as you fight in the midst of great loneliness to realize Heaven's will.

Father and I regret not being able to serve each and every one of you, our beloved children, a full table of warm dishes and steaming rice. Please accept our heartfelt token of love. Beloved blessed families, Father and I earnestly hope that you can become the proud sons and daughters who stand with True Parents until the last moment and work energetically to realize VISION 2020 and national restoration. Please remember that Father in Heaven is continuously cheering and supporting us. I pray that until the day you ascend, you may all fulfill the duty of the filial heart before Heavenly Parent, become shining rays of hope around the world and be filled with love and happiness always.
