Dear Friends,

How deep can a father's love be?

Watch these two videos of a father's love that is unconditional in a very conditional world, and a love that is also very much fun, original and empowering.

I believe that every human being needs and craves original and unconditional love in their lives, and we in the Women's Federation for World Peace seek to highlight and honor these qualities on this year's Father's Day and every day!

And notwithstanding, we also honor the Divine Parent of us all on this day, whence these innate beautiful character traits mentioned above come from.

**Wishing all fathers, husbands, fathers-in-law and grandfathers a most meaningful, rich, uplifting and happy Father's Day 2019, and every day throughout the year!**

Sincerely,  
Angelika Selle
