# Student Testimonies

“West Rock CARP is becoming a powerful and amazing program for the young adults. I can see it changing the hearts of the young Unificationists and teaching them how to take ownership in their lives.” – West Rock, NY

# Student Testimonies

“We live in such a commercial and superficial society but I want something deeper. I want to be a *great* leader.

What would happen if the people who ran the world had values? The world might be a much better place.” – UMD

# Student Testimonies

“Every discussion we had after these [CARP] talks were deep and went on for up to three hours. CARP has been an open and safe space to talk about deeper issues that arise in our lives. The entire chapter feels extremely lucky to have found an outlet to express these things and to have community-filled with like-minded young people.” – Philadelphia
