

## Report on Rev. Jin Hun Yong Seminar in Budapest

Tibor Krebsz  
June 14 - 17, 2012  
Budapest, Hungary

“True Father’s words are very delicious.”

During the Seminar in Budapest Rev. Yong was giving those words with big smile and incredible happy heart!

Rev. Yong continued his lecture tour in Europe in Budapest. Mr. Tim Elder joined to him and they were in Budapest from 15th of June till 18th of morning.

75 participants attended this Seminar, 55 members from Hungary and the others came from Poland, Czech Republic, Sweden, Austria, Switzerland and other West European countries. The biggest group abroad was from Poland, 13 people.

Saturday morning Rev. Yong asked Mr. Tim Elder who is closely attending Kook Jin Nim in the last few years, to give lecture as well. Mr. Tim Elder gave a beautiful testimony about how Kook Jin Nim as elder brother is supporting his younger brother Hyung Jin Nim. He also told that True Father longtime was waiting for such Cain/Abel brotherhood and cooperation. Mr. Elder also gave the “Strong Korea?” lecture what Kook Jin Nim is used to give in the last years. And part of this lecture he explained more deeply the strong Abel concept as well. If Abel would not die and protect himself front of Cain than Cain would not commit sin by killing his younger brother Abel, and they would have time and chance to restore their relationship and the Messiah could come.

Rev. Yong he gave many insights of True Father’s and True Mother’s life. As the lectures were moving on God’s heart and the True Parents’ heart were more and more revealed. And according the reflections many of the participants had to recognize that we still need to study and make much more serious research of Divine Principle, Bible, True Parents life and so on.

Rev. Yong was really asking the participants to study the Bible as a precondition if we want to deeply appreciate the value of Divine Principle. His personal example of searching the truth and understand the life of True Parents is more than outstanding.

Rev. Yong gave deep insights how God was using the biblical families to convert Satan’s lineage to

God's lineage. He also shared that when he gave this lecture to ACLC pastors in USA, they were crying and so moved. Because they really understood, only the Messiah can teach such insights. But Rev. Yong was challenging the participants to asking how about us. We take this insight as an interesting theory or as the ACLC pastors felt.

Through the lectures Rev. Yong gave a clear understanding what is the mission of Messiah. Find the truth and spread it to whole mankind. Restore and complete Eve, complete whole mankind on Earth and in the Spirit World as well. Complete God himself and let him experiencing through completed Adam/Eve all his ideals and dreams. And complete the angelic world. Big mission and Rev. Yong went one by one to explain how True Father completed ALL THOSE TASKS!!

Rev. Yong was putting many questions to participants especially when he was explaining the 4 core attributes of God. Explaining us what the true subjectivity means. He was challenging the people but same time giving deep internal guidance. By completing ourselves we can complete our partner. As the parents are completed by children and vs. The husband or wife can be completed by each other. So the true subjectivity means create an object partner.

Rev. Yong also pointed out the importance of doing HDH, learning Koreans. He is concerned that the outside people much more interested to study Korean language than our church members.

In the beginning of the Seminar in Hungary and before his depart to Vienna said, that they do this Lecture Tour not because they just want to give nice lectures and talk about talk. But they want to see that the members in Europe will move on and take actions until D-day.

The followings are part of the reflections from participants:

..."It was like enormous feeling, healing our minds and bodies. The content was so practical and opens the way for personal, family and tribal work. It motivates me to work first of all to remove my fallen nature and re-create myself through fulfilling tribal messiah mission. It helps to love my wife, children and communities by serving them and complete them."

"I am very grateful for this eye-opening workshop. ...we have got so many interesting details about True Father's life course and personally I realized, that I still need to learn about the basic things. Things like sense of responsibility, ownership and love! ...I see my spiritual path clearer front of me and made a new resolve to make True Parents victorious in their life course so that they may shine more brightly to all mankind."

"In deep gratitude I declare that my life has resurrected through this Seminar."

"I am grateful to be here. There are not so many days left until 13. 01. But I really could not get inspiration by myself, what to do... But coming to this lectures, I know what I can do and I will start immediately what I got."

"My feeling is that the purpose of this Tour to give more clear understanding about TP's course in order to give us more confidence for witnessing to Christians, since we have not so much time. So the lecture is for explanation, but in the same time it is a call. It gives mission and responsibility.

"Organization was excellent, music was excellent, lectures were excellent, content was excellent. Let' us organize more such WS."

"I liked the lectures and the Lecturers as well. I am grateful that I could take part of this WS. I am

reenergized by spiritually, I had learned a lot and with those knowledge I am turning back to my daily life. I want to pass it on to many people what I had heard here. First of all I want to used them in fulfilling my Tribal Messiah responsibility. It is very challenging task, but I do believe the prayers can help and this way it will work out well, if I will be persevering.”

“These kind of WS-s are like receiving “pure oxygen” which can save life. I also feel God’s love and care. I felt it also during these two days, and I know that I have to be very strong and single minded because God needs me just like he needs all of us. So I simply cannot and do not want to abandon Him and True Parents. I really want to help them. And I also have desire to become God’s true child who can bring joy to Him and others.”

“ I am very happy that I came. First I didn’t want but I would have been such a fool to miss this blessing! Many times I was moved, sometimes even to tears. I had great discussions with brothers and sisters related to the WS. I still have some questions...but I will find the answers out by more studying.”
