

# Report on the Visit of Rev. Jin Hun Yong in Stockholm Sweden

9. – 11. October 2012

Rev. Jin Hun Yong came to Stockholm, Sweden, where he held a three day evening workshops on the topic “Let us become the Heirs of True Parents’ Life Course and Teaching”. There were around 40 – 50 participants gathered on Tuesday, Wednesday and Thursday (9th, 10th & 11th). These evening lectures were very animated and the members came every day after work, many came from far and hence the sense of urgency of going through the

lectures quickly was very much felt. We started from 6pm and ended at 9:30pm every day. Christa Kamga served as the translator from Korean to English for the lectures. It felt like there was a spiritual battle to fight in Sweden, the atmosphere was heavy at first so much the members had a lot of questions which Rev. Yong, patiently answered in subsequent lectures. From the first day, they went with some members to very significant places, like the summer house of Swedenborg (the nature). These environments were really spiritual and could

help me be calm and meditative. At that time too, Rev. Yong, kept talking members. We had participants from Urpsula, Finland, Italy and around 7 second generations attended as well. From the second lecture, Rev. Yong was suffering from a cold and Christa was coughing. It could have been the weather; it could have been an attack as it was just the beginning of the European tour, however thanks to the many conditions done, prayers and love from the members, the third day was so lovely, there was a change in the atmosphere and we even ended the lecture an hour later and still everyone was eager to listen more.

Rev. Yong explained how we can only get perfected through the other, by helping another person to grow, by becoming a servant to another person and gave very practical examples like eg. How parents are servants to their children. At times, he would speak very speak very loud so we could feel our original mind, like when he talked about our spiritual body & HDH, as much as we feed our physical body we should feed our spiritual body. At times, Rev. Yong used the blackboard to help us picture important points. It hence became so clear.

An interesting point about the lectures was that it spoke about foundation day very clearly, what will happen, what kind of day it is, the current situations we are in, how we should live from now before and

after foundation day. What members really wanted to hear were stories on the current situation happening in America, they had questions on the True Children & IJN especially, we hence were glad that he could give us some answers, and even showing us very providential charts, helping us understand more on how all this came about and what will happen next. We can feel much more hope now, for the True Family, for us & the whole world. It was a very much anticipated area that he touched. What we couldn't explain, a lot of the things that troubled us was somehow clarified. Many of the second gens were very inspired and grateful to be given such practical examples & to know more about the life of our True Parents and True Family in such a deep way.

With this formula, I will end my report: For our physical body to grow we need food, for our Spiritual self to grow or develop, we need to nurture it with the word. Food = HDH (for spiritual body). These are some of the reflections that were received on the next day. Mr Yong is a typical Korean with a Korean spirit, just as TF but also strong with the glimmering eyes. I am only happy and grateful to be allowed to be in this situation and all the knowledge that he gave to us. Can say the same as all the others that the last part was extremely exiting information as we did not know about and we were a lot interested of it. Here in Sweden it is sometime difficult to get hold of information from Korea of actual happenings. I did greet him, but had to dash away with my friends that could offer me a ride with the car back home at this late hour. - **Bodil Nyberg**

There were some new insights for me in the material. Especially the last hour of the first evening when Rev Yong spoke about True Fathers early course and all the difficulties to bring about True Mother and how 2 women had struggled and failed in the position before True Mother came, and how much suffering that had brought to Father. I could feel some Father's heart. That was good. The second evening I found pretty interesting; about Foundation Day. That evening was the best part. Something on a slide said that Hyung Jin Nim and Kook Jin Nim united and that is good and providential. I believe so and it was good to see that written. - **Ingrid Rivetti**

It was valuable to get updated information about the providence. Things are changing and developing fast so it is important to keep track of the times, so I appreciate Rev Yong's visit to Sweden. Thank you very much! - **Jan-Peter Östberg**

I am really grateful that I could receive these lectures after the 40th day of True Father's Seunghwa. I will study DVD again and again and pray in order to understand the contents deeper. Thank you for your deep understanding of TP's words and giving us these with your life example, through which we can feel vibration of love of God. - **Midori Grahn**

God has been shouting and telling me that I must get rid of satan's attributes and learn to live with His (God's) attributes and Characteristics. Maybe He is trying to make us understand more. It is also important to be able to feel His painful heart, I learned. **Katsuyuki Kikuchi**

Thank you very much!
