

## Go daringly forward, reveal the truth, boast True Parents and testify

Young-ho Yoon  
November 5, 2017

On the third day [of Chung Pyung Great Works 2017] (November 5, 2017), Secretary General Young-ho Yoon's Lecture was held in the morning at the main hall of the Cheonseong Wanglim Palace. He emphasized the following three strategic directions given by True Mother, which is witnessing, creation of the environment as well as cultivating people of talent. He had time to report on the providence all over the world that True Parents are developing around the world. The following is a lecture note:

"Yesterday True Mother told us as following, "Go daringly forward, reveal the truth, boast True Parents and testify. If you testify True Parents, you will meet a righteous person who Heavenly Parent prepared with His works. Miracles will happen through the righteous person." True Mother also gave the following speech at last year's Special Strategic Nations Conference:

"When and who will our Heavenly Parent and True Father in Heaven work for? You must believe that if True Mother and you become one here right now, you will experience our Heavenly Parent and True Father's works."

Do you believe it? New providence of spring season started by True Parents after going through a long period of indemnity restoration for 6,000 years and They gave us the blessing to live in this new age. We must believe that when we boast and testify about True Parents, true Cheon Il Guk will be settled in our family and society and country. We should keep moving forward to achieve this. Thank you."

On the second day, there was also a special lecture by National Leader of FFWPU-Japan, Eiji Tokuno on the 2nd day in the morning. The members from each country received the amazing grace in the lectures of Secretary General Young-ho Yoon and National Leader Tokuno Eiji. I will introduce some of their testimonies.
