Testimony  
Richard Francis

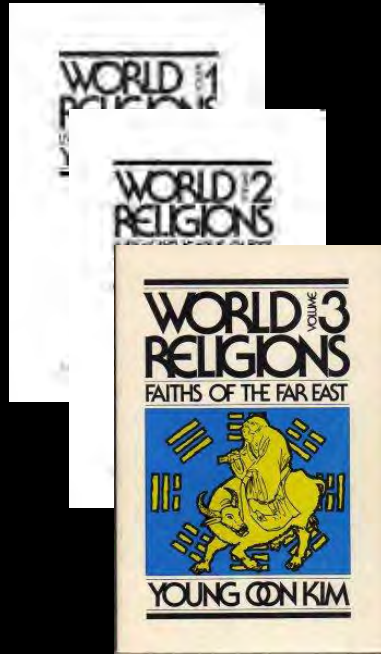

Two weeks later, I met one of the Japanese missionaries from the Unification Church and was invited to the church center. While waiting for the lecture, I curiously opened a Divine Principle Book, and I saw the picture of Father Moon.

The book immediately seemed to turn to gold, and a blinding ray of white light from Father's picture came out at me. I froze; then I regained my composure and ran out.

that guides students with a loving parental heart  
- Shimjung - to fulfill Gods 3 Blessings.

## Education of Heart - Shimjeung

In order to make students resemble God's Heart, a teacher must teach God's hopeful Heart at the time of creation and God's sorrowful Heart at the time of the human fall and God's painful Heart throughout the history of restoration.

An education of moral standard is an education to reach the perfection of family, for the moral standards of a society are based on the home or family.

To understand a principled form of life or a life based on the moral standard.

Those who are to be taught (children) stay in a certain stage before marriage.

# Education of Technique

Bringing about perfection of

- individuality and
- the perfection of a family

by an education of

- heart and
- moral standard respectively,

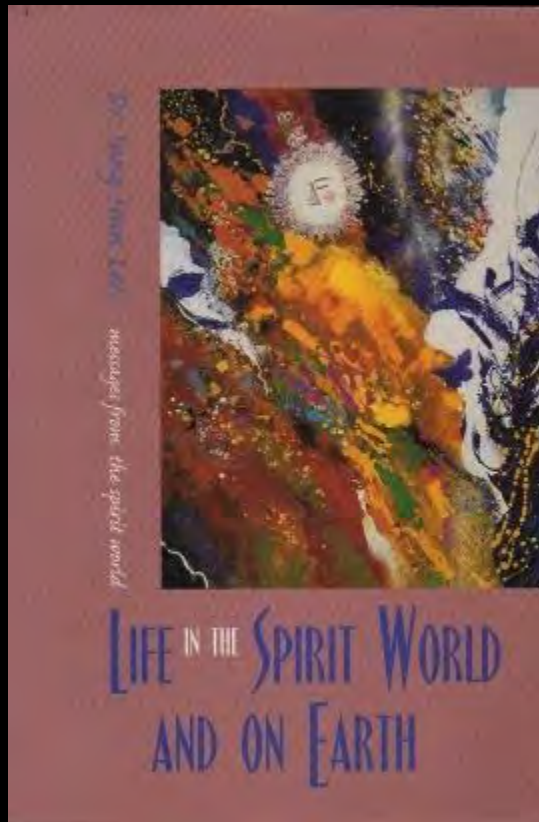

## Education of Technique

if in addition to these one masters technique (methods and skills), he will be entitled to dominate all things with love.

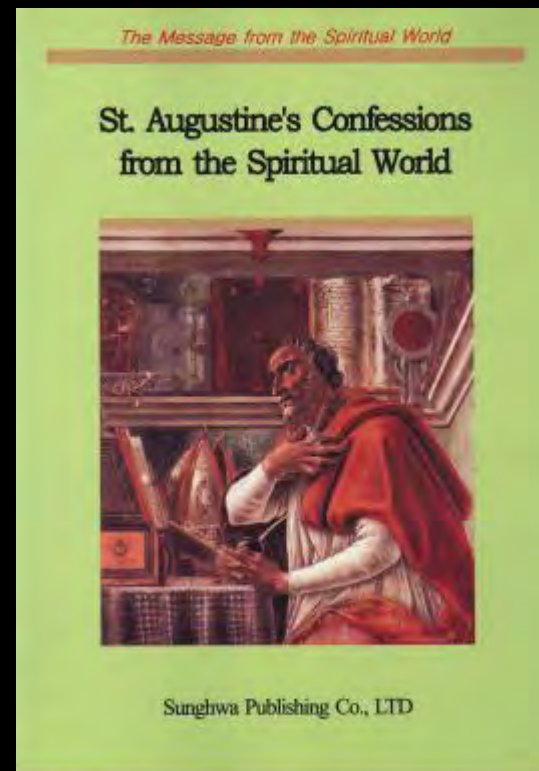

In this way, the loving dominion over creation will be accomplished.
