

Fishing in the Baltic Sea as Condition to open the Gates of Witnessing in Poland

Rainer Fuchs
April 30, 2016

The end of April 2016 - 14 brothers and sisters from FFWPU Poland, first and second generation participated in a fishing cruise on the Baltic Sea. According sea philosophy of True Father this fishing was treated as the condition to open the gates of witnessing in Poland. At the same time, the first Polish edition of "Exposition of Divine Principle - Three Colours" was published as the foundation of Word for all Poland. Because we live in the age of women, wives and mothers - one sister caught the biggest fish. All together we caught a lot of cod. The weather, despite of bad forecast, was beautiful with sun and light wind. Purity of the sea, fishing experience and beautiful weather give hope for the new beginning of Providence in Poland.
