

3-day Witnessing Campaign for Second Generation

Ukraine, Kiev, Mykhailo Ilin, July 2-8, 2018

After the 4-days educational workshop for Ukrainian SG held in Kyiv, our 11-15 years old children went to two witnessing centers for 3 days. First group of 9 kids went to the Western Ukraine – L'viv City, second group of 5 kids went to the south – Odessa City. Each group was accompanied by few blessed families members.

During these 3 days children lived together with full-time members in witnessing centers, following the common schedule and the rules. They were doing all kind of witnessing activities: street witnessing, lecture training and giving Introduction lectures to people.

Children were inspired by street witnessing and speaking with people. They made witnessing very enthusiastically. But, at the same time, they feel very upset, because they saw the real situation of the youth: indifference, apathy, selfishness, materialistic thinking, immorality, etc. And they kept asking elder members how they can change this kind of people's lifestyle and way of thinking.

On the way to Odessa City children also participated in Peace Road. And in the end of 3-days program kids could enjoy entertainment program. They went to the theater and sightseeing. After the trip children felt tired but inspired. They shared they had many valuable experiences and awareness about the Principle.
