

Korean Second Generation Start English-Language Course in Kyiv, Ukraine

Mykhailo Ilin
December 29, 2019

Thirty Korean second-generation young people arrived in Ukraine on December 29 for a four-week English-language program. With 17 university students and 13 high-school pupils, this fourth English training and cultural program was the largest held so far in cooperation with the Korea Multicultural Peace Federation.

The program had a solemn opening at Yellow Castle in Kyiv, the nation's capital. After that, the students actively started their classes led by our English-speaking staff.

The students had the opportunity to join a New Year's Eve celebration in our Training Center and see some places of interest in Kyiv.

The four-week program includes a trip to Poland, taking part in a Universal Peace Federation project, and three days of witnessing.
