January 12, 2020

On January 12, blessed families from the city of Kyiv gathered for a meeting with Ukraine National Messiah Rev. Jin Pal Chung and his wife.

There were 65 people altogether. The meeting topics were the goal of family centers and extended families; rules in blessed-family life; and the danger of social networks for the second generation. As we have a system of two or three families living together, the topic about the goal of family centers was especially relevant for everyone.

The topic of social networks endangering the second generation was presented by an elder second-generation, Liza Kotseba. She gave a presentation about Instagram, and we discussed together a plan to create a true-families group as a tool for promoting family values and tribal messiahship.
