

Visit of Mr. Jack Corley

Bucharest, Romania, 1. – 3. October 2016

Greetings from Romania!
We want to start our report by showing our gratitude to our Heavenly Parents and True Parents that we had the opportunity to receive our Continental Director Rev. Jack Corley in Romania! He visited as the representative of True Parents and it was absolutely a blessing for the Romania community.

The first meeting which started our three days of visiting was the Sunday Service. We started singing to prepare our hearts. We were all anxious to receive Rev. Corley. We invited the

CARP members together with Blessed families and SES (Shimjung Education System) members. Rev. Corley gave his special messages for young members. He started to speak about his childhood and family background. Then he told us the background of meeting the Movement and shared about life of faith attitude and purpose. The main message was that our life should be a life where we can perfect love. We should make our life the best gift for Heavenly Parent. We must stay alive, be alive in order to enter spirit world. Heavenly Parent wants for us to have a family of love.

Rev. Corley was happy and making the audience feel joy too. We think that each one received an inspiration message for his life of faith.

The second meeting was in the Peace Center (JeonDo Center). This meeting was for full-time members who are doing JeonDo mainly in Romania. In this meeting Rev. Corley was sharing about his JeonDo experience in Russia. That his spiritual father waited for him even while it was raining outside. He told us to be enthusiastic about our activities. Also we asked questions for Rev. Corley about JeonDo activities and life of faith. One question was how to raise up CARP members? Another question was how to create good relations as brothers and sisters? And he gave us clear answers for each question from our members. We all could feel his love and sincere encouragement for Romania JeonDo activities.

In the last day before he leaves from Romania he shared with us very precious experiences with True Parents. It was a small meeting but still he shared his experiences with full spirit and sincerity. We are here in Romania, far from Korea, which is True Parents' country. We never know if we can meet True Parents directly or not in our life even though we wish so. But through his experiences we could feel True

Parents closer to us and we could feel more connected to True Parents heart. We all could feel that even we are far from where is True Parents but we can be next each other when we are spiritually and heartistically connected to them.

This period was the wind of inspirations and blessings, the shower of Heavenly Parents and True Parents Love. We all could feel the strong desire to offer greater joy and hope for Heavenly Parent and True Parents. It was right time and right moment to receive the inspiration and guidance for

our life of faith. We will keep our high spirit and bring victory in Romania providence!

Thank you so much Heavenly Parents and True Parents.
