I am very proud and happy to let you know that, after more of four years of work, “People Who Choose the Unification Church” was published, in Korean. All the essential Unification ideas are creatively and directly explained so that they are comprehensible for people who are not church members. The book’s twelve chapters cover: “The masterpiece of love”; “Eve’s apple and Natasha’s snake”; “The suffering of God”; “Jesus’ marriage”; “True Parents for humanity”; “The power of woman”; “Breaking love’s glass ceiling”; “Marriage made in Heaven”; “Absolute sex”; “Eternal love”; “Blessed family life”; “Living for the sake of others.” The book is rich in verbal and visual illustration: Forty-six colorful real-life stories from Unification Church members and ambassadors for peace enliven the narrative – people from Argentina, Belarus, Brazil, Czech Republic, England, France, Germany, Guyana, Iran, Italy, Japan, Korea, Nepal, Nigeria, the United States, and Zambia. Twelve full-page, full-color illustrations, one for each chapter, were especially created for the book by a group of Russian artists and graphic designers.

This book is a wonderful way to dispel the misinformation and half-truths that have been circulated by detractors of the church, or as it is called today, the Family Federation for World Peace and Unification, and to share the power and beauty of Rev. and Mrs. Moon’s vision for a world of true love and peace. I would like to encourage you to buy the book, give it to your Korean-speaking friends and contacts, and spread the word that it has been published. To that end, I also ask you to post the announcement (and the book cover) in your newsletters, on your websites, and on your Facebook, and ask your friends and contacts to do the same. When the Korean sales go up, the book can soon be published in other languages. English and Japanese versions are in the planning stages.

At the moment, the Korean version is available only in bookstores and on websites in Korea, but hopefully it will soon come out on [www.hanbooks.com](http://www.hanbooks.com), an international Korean book merchandiser. If you want to get copies immediately, I will personally make sure they get to you, one way or another, wherever you are.
