The Two wedding rings (Temporary translation)

I was standing downside of a high mountain, while watching at it I remembered it was the same mountain where the ceremony of the True Blessing happened. (See Revelation April 1, 2008) So I decided to climb up again to the top. And like what has always been happening, I was with Father God as I climb up the hill.

Upon reaching to the mountaintop, I could see the great changes around, the surroundings looks more beautiful and I felt the coldness of the wind as it blows. Unexpectedly there was something that immediately caught my attention, a gigantic water tank that situated at the center of the mountain top. Deep in my heart I know that going closer to the giant water tank would not mean an easy way because I felt that it is God's dwelling place. At the bottom part of the water tank, I have noticed that there was also a water tap link with a pipe connected to the tank.

I really wanted to get closer but I hesitate to do so because I knew that it was such a Holy Place. Aside from it's being nice place and clean it is really peaceful and quiet. I then asked the Father God, **"What is that Father?"** Father God replied **"That is the source of all the water that flows throughout the World. Come! I will take you there and I will show it to you."** So I quickly went closer to the giant water tank with God.

It is not just an ordinary made tank but incredible tank that was built wonderfully. It looks so brilliant and it really has a strong solid foundation. Then God the Father keeps on talking, **"This tank, (God the Father is pointing to the giant water tank) will never turned empty because it is definitely the source of all the water that would flow into the entire World."**

It was really confusing especially when I saw the same tap of water which I have already seen on the previous message. 2 (See Revelation November 25, 2008 / True Blessing files) but I just keep listening as God the Father continue. Again He told me: **"Come here, I will let you touch its part."** So I touch the body part of the water tank since its foundation is off a little above the ground. As I've touch it, I could not really understand my feelings at that very moment, something runs into my flesh and my heart was lightened up. Then, I felt the ultimate happiness which I never been experienced before, never in my whole life. I am like one of those newly born creature who feels nothing but purely happiness.

Then again, God the Father ask me to touch the faucet of the water tank. Upon touching it, I could not anymore describe my happiness. I was very much excited while holding it but worries covers me up as I am afraid to make mistake since Father God stand beside me. So, I was very cautious not to turn-up or to make more opening on the water tap because in my mind if I open it widely, the water will flow rapidly into the entire World and all people might be affected. Then Father God said, **"Wait for me here as I will get something."** I did not answer then as God the Father walked away. As He came back, God the Father called me immediately and said, **"Come, as I have something to give you."** So we turned our way in an opposite direction from the water tank and walk away. Not too far from the water tank, God the Father stopped. Facing each other, he took my hands and holds it. God the Father was holding my hands in a manner wherein both our right hands meet with palm while His left hand facing his palm upwardly under my right hand and the palm of my left hand was facing downward

over His right hand. God grip my hand firmly while we are holding each other I feel that he put something in my right hand and God start talking: **“This things has been kept in my hand for a very long time and my wife owns it and I had promised to her that whenever I could find someone who is worthy enough, I will surely give it AND IT IS YOU. Take care of this as I take good care of it for such a long time. Now, open up your hands.”** I widely opened my hand. To my surprise, I saw **the two wedding rings**, one is **Silver** and the other is **Gold**. I was really stunned to what Father God handed over to me as I have learned the fact that it was a wedding ring. My heart is asking **“Why Father God did give to me this two wonderful wedding rings and why He gave me two wedding rings at a time?”**

On the other hand, I was wondering deep within me because the way I talk to Father God is not anymore a Father and Child relationship but like a Husband & Wife. It looks as if God the Mother come into my being. As I am watching down from the mountaintop where I stood up, I can clearly see that the mountain where I am standing is surrounded by big cities. Then I asked to Father God: **“Are those people below will not persecute me?”** while pointing my fingers towards the huge cities situated around the mountain side. God the Father answered: **“Don’t worry; I will take charge of them as they could not speak out.”** Then I asked again: **“Are those people below do you think they will believe me? It’s alright for you because they already knew you as a father and whatever they want in their lives they will ask it directly to you. How about me, would these people believe me? They don’t realize that I am the owner of their life as a mother”** and God the Father replied: **“I will repeat, you have nothing to worry. I will take charge of them and I would never let somebody who aims to defile my Kingdom because if there would be anyone, I will be the one directly to punish them.”**

Remarks: The **Mountain** represents God himself. The **Water tank** represents the heart of **God** who is the source of **Love**. The Water also represents the word that is constantly the source of **life**.

Logically, the **Wedding Ring** symbolizes the **LOVE** of the giver (**Bridegroom**) to the receiver (**Bride**). The **SILVER** and **GOLD** signify the age or time period.

Literally, the one who gives the Wedding Ring is in the position of a **Bridegroom** and the one that receives it is in the position of the **Bride**.

There are religions who study the nature of Mother God today but without the help of Principle they may never find the precise explanation to it. However, in the Exposition of the Divine Principle Chapter 2 Section 2.1, the presents of Mother God is rejected. (I will explain on my next mail why)

Talking of Mother God, True Father already gave his direction to all Unification members to find her.

True Parents word: “We should find the **mother** on the levels of individual and family. This is the Holy Spirit. The [spiritual] Holy Spirit and the substantial Holy Spirit should become one as the mother. This should give rise to the individual, family and tribe and bring a great transformation in the lineage”.

Obviously, the Spiritual Holy Spirit is the Mother God, but True father did not clarify who is to take a stand in the position of the Substantial Holy Spirit because to find that one out is our responsibility.

Though the True Parents is in the Holy Spirit position in front of God, but generally they are in the position of a bridegroom to a chosen people. (See True Father's word below)

True Father's word: From the original viewpoint, we cannot be satisfied with only spiritual rebirth. **We must be born again substantially with both spirit and body.** That is why **we must go back to the position of the seed** in order to restart both physically and spiritually. In order to accomplish such a providence, **True Parents as a bridegroom and a bride must come** and **we are promised to be born again** as a new life by going through **True Parents who re-plant us as new seeds;** so we can be born again as a new restored life, Considering all the facts mentioned above, we can automatically know that **a new Messiah is necessary.**

Above True father's statements is very clear that the True Father and True Mother as True Parents is in one position as a Bridegroom. And they are waiting for the substantial Holy Spirit to come as a real Mother to stand in the Position of the real bride.

The substantial Holy Spirit shouldn't be alone; it should be million so that the salvation is quicker and easier this is actually the mission of the Blessed couples. That is why if the Unification church believed that only the True parents has the capacity to connect to God then what is the purpose of pushing the members to make a purification? And what is the purpose for them being a True Parents if the Blessed Couples is incapacity to do so?

To the Blessed Couple who could not be able to connect to God and to the True Parents spiritually, may be its not yet time for them. But as Blessed Couple, you shouldn't be doubtful because you can really make it just trust the True Parents; trust the Principle as you've trust God. Above all have faith to your self that you can do it. In fact, these was the main purpose why the Principle of Restoration was being introduce for us to come back to God and have a standard relationship with them.

If there is someone who can talk to God substantially is not a super natural phenomenon; it is normal base on the fact that it was the real goal of the Principle. I don't think so if the Unification church will disagree with it, therefore, they shouldn't be surprise.

When my wife told me that she received messages from Father, I thought it was just a joke. But the messages were getting deeper and deeper until I realized that the Messages really need to have a serious attention. Questions began to circulate my mind, **"Is it really possible to talk to God substantially? If it is possible then how can I make it?"** The only way to answer my question is to study the Principle.

Though the message received directly from God, still we need the expertise of the Unification education departments to help analyze the word. It is because God's language is naturally symbolic. There are many different types of God's messages; Directions, Recognitions, Law, Blessings, Educational scene, Warning and Declaration. Sometimes God is talking and sometimes he just gives the scenario for us to understand more on the Providence.

God's revelation includes: The growing period of God's word, What is the real meaning of Alpha and Omega, Who was Mary in front of God, the real story on the fall, the real story between the battle of Jacob and the angel, who is the substantial Holy Spirit, the next Blessing

of the Blessed Couples, the Formula of the True Blessing, the Formula of the 3 great Blessing, how to separate from Satan easily, the easiest way to understand rebirth, the True nature of Adam and Eve, the fate of Cheong Pyeong, the fate of Japan and Korea in a providential way, the fate of the Unification church leaders, True Parents need to have a marriage ceremony of the Second Blessing which is very important according to God.

Also include what is inside on the miraculous crystals that was seen during the liberations, the status of the Angelic world, how to reach perfection and many more. But one of the most shocking on the revelation was that God the Father introduce God the Mother.

Revelation above is just one of more than 600 amazing messages from Heavenly Father and Mother. My wife and I are not expecting to the Unification church to believe but no one can stop us of coming out even it can cost the dignity of the whole Unification church if that's the only way for the leaders to change why not.

Thanks for reading,

Jhun and Gelyn
