

## Online Matching System - Cheon Il Guk Incorporated Seeking CEO

Anne-Marie Mylar

June 10, 2016

*Cheon Il Guk Incorporated (CIGI) is a non-profit organization that has developed and maintained the Online Matching System to help facilitate the matching process and communication between single Unificationists from around the Unites States and world. The founder and developer of the Online Matching System, Anne-Marie Mylar, is currently seeking a CEO to partner with her in developing the organization to the next level.*

### **Mission and Vision of CIGI**

Cheon Il Guk Incorporated exists to provide specific services to Unificationists and individuals who seek the Marriage Blessing worldwide.

### **An excellent CEO candidate:**

- has business skills/experience
- is flexible and easy to work with
- can be located anywhere in the United States
- can devote full time to the work
- has the financial ability to work without a paycheck for up to a year

As the founder and creator of CIGI, Anne-Marie Mylar is currently looking for an entrepreneurial-minded, educated, and visionary individual to assume the business details of the organization. At this time, CIGI offers one primary service, which is the Online Matching System (OMS) <http://www.cheon-il-guk.org/>. Anne-Marie will continue to administer the OMS components (website, email response, etc.), but hopes that the business aspect of CIGI will be taken care of by the CEO.

Anne-Marie is primarily seeking someone who can *partner* with her to bring CIGI to the next level. This partner does not necessarily have to be a Unificationist, as he/she will not have access to OMS data and matching profile information. However, the CEO must have good business acumen and be able to assume the duties of managing CIGI while still earning his/her own income independently. As CIGI is a non-profit, the organization will not be able to offer a paycheck, though that may change as the organization develops and generates income. Therefore, the CEO position is ideal for someone who has a solid personal financial situation, and has time to devote to the important mission of CIGI.
