

Prayer: I Need A Replacement

Anne-Marie Mylar
March 9, 2024

Today I wrote a prayer. I have no clue if I am right or not in what I said. I am sharing it with you, because I do not know what else to do.

Dear Beloved Heavenly Parent,

Today I heard a report from Dr. [Robert] Beebe about New Hope School. The part of the report that affected me the most is not the fact that the school needs to relocate, but the fact that he is 71 years old and need to find a replacement. He needs to find someone who will want to continue the wonderful work that he and his wife have done through New Hope School.

Then, I thought of me. I am soon to be 73 years old, and I am also looking for a replacement. Someone who would care about Cheon Il Guk Incorporated and the Online Marching System the same way, if not better, than I do.

Why should it be so? Why can we not find the right couple, young, healthy and righteous among our children to continue the legacy we started? We must be the world worst advertisers, I know, I am.

This 21st century is going to be a very, very, very difficult one and I am worried that our children are not well prepared. Yes, they have good jobs, yes they have good ethics, yes they care and love one another, and their families are doing well. But unfortunately, these qualities are not going to be enough to protect them from what is coming.

I am not asking them to be missionaries, like we did, having no money, no time for our own love ones, that is not what I am asking, and that is not what Heavenly Parent or True Parents are asking either. What I am asking of them is their heartistic and substantial involvement in the providence at end.

How?

Don't be just un-lookers.

Do not let the foundation of the elders go to waste. Keep making good money and support financially without impoverishing yourself the work of the few who chose to give their time and lives to the providence at end.

Make sure that the work started by your parents does not disappear. Involve yourself in making their needs known to your many friends, so that they will have a successor within our own Worldwide Holy Community.

Dear God of mine, I am ignorant of the many complexities of the lives of our children and what I expect and ask of them may not be possible at all. But what I do know is the 21st century will be furiously difficult. The best way for them to prepare for it is to have you on their side and be aware of they own legacy.

This I pray and report in my name Anne-Marie Mylar, Blessed central Family. Aju.
