

## Internship Opportunities with National CARP USA in Spring 2019

Teresa Rischl  
February 14, 2019

The National Collegiate Association for the Research of Principles (NCARP) is opening up a few intern positions for students for Spring 2019!

Interns will get the opportunity to work with a non-profit, NCARP, and will be able to utilize the tools and resources in CARP for their personal development as well as to help develop the programs and needs of CARP.

There are two paid positions available per internship. If you would like to help volunteer for experience, there are more spots available.

### Curriculum Development Student Intern

#### Description

This internship focuses on learning the content development process, using the CARP Curriculum

series. Interns will work with senior content developers to create four to five complete presentations delivered in 40 minute PowerPoints, along with accompanying scripts, discussion questions, and list of resources.

#### Learning Objectives

- Expand knowledge of Headwing perspective
- Develop skills in articulating and presenting philosophical, political, and sociological ideas
- Understand the depth and breadth of the Headwing perspective
- Learn how to have meaningful discussion as a team

Application Due February 24th, 2019!

#### Graphic Artist Student Intern

##### Description

The focus of this internship will be on learning to create graphics and visual design for the CARP Curriculum series. Interns will work with an experienced CARP designer to develop graphics for four to five new CARP Curriculum presentations in Google Slides and Microsoft PowerPoint formats as well as update graphics on the existing six Curriculum presentations.

##### Learning Objectives

- Develop skills in designing visually appealing graphics and in organizing information visually in a clear and engaging presentation
- Develop skills using Photoshop, PowerPoint, and Google Slides
- Engage with the CARP worldview and mission of the CARP Curriculum series
- Learn how to work as a team

Application Due March 17th, 2019!

# Curriculum Development Intern

## Requirements

We are seeking highly motivated **current college students or recent graduates** who are excited about the vision for CARP and who want to contribute to expanding its reach among campuses across the country.

Interns should have excellent verbal and written communication skills, with working knowledge of Web, social media, and Microsoft Suite programs including Word, Excel, and PowerPoint.

Interns should have a broad foundational knowledge of and interest in sociology, philosophy, and political science. They should be familiar with the six CARP Curriculum topics that have already been developed and with the worldview of CARP and CARP's founders.

## Time Requirement

The internship will last for 17 weeks, from **March 1st to June 30th**. Interns are expected to contribute **3 hours per week** on average, including a weekly conference call with the entire Curriculum Development team. Other time will be spent conducting research on the topics being developed, contributing ideas to the team, and giving feedback on content other team members develop. All communications will be conducted virtually. Interns are invited to conduct further research according to their level of interest in the topic being developed.

## Stipend

Interns will be provided a stipend of **\$500** upon successful completion of the internship.

## Supervision

Interns will work under the guidance and supervision of the CARP America staff. The intern supervisor will be **Jinil Fleischman, National Program Coordinator**.

**Application Due February 24th, 2019!**

# Graphic Artist Intern

## Requirements

We are seeking highly motivated **current college students or recent graduates** who are excited about the vision for CARP and who want to contribute to expanding its reach among campuses across the country.

Interns should have strong design skills with a working knowledge of programs such as Adobe Photoshop, Microsoft PowerPoint, and Google Slides. They should also have good verbal and written skills and be able to take directions and work on a team.

Interns should have a foundational knowledge of and interest in Headwing Thought and the CARP Curriculum series. They should be familiar with the six CARP Curriculum topics that have already been developed and with the worldview of CARP and CARP's founders.

## Time Requirement

The internship will last for 13 weeks, from **April 1st to June 30th**. Interns are expected to contribute **3 hours per week** on average, including a weekly conference call with the entire graphics team. The workload will be dependent on progress made by the development team and, thus, may not be consistent. Interns are invited to conduct further research to develop their graphic design skills.

## Stipend

Interns will be provided a stipend of **\$300** upon successful completion of the internship.

## Supervision

Interns will work under the guidance and supervision of the CARP America staff. The graphic artist intern supervisor will be **Taka Sugawara, N-CARP Administrator**.
