Hundreds of Peace Starts With Me Masks Given Away

[Peace Starts With Me](#) is on the faces of hundreds of people in New York and New Jersey after several young Unificationists gave away 'Peace Starts With Me' masks on the street on July 30.

“We are spreading the message of world peace, especially during this time,” said Andak Morris, who led a group of volunteers handing out free masks in Newark, New Jersey. “We wanted to help people by giving them a mask with a positive message during this pandemic.”

The masks were immediately a hit with many people stopping to get one. “This was my first time doing a giveaway like this and I was shocked to see such a great response from all the people coming up to us for masks,” said Junghae Joo, a

volunteer in Newark. “We had several bags containing about 50 masks each and ran out very quickly.”
