Hello dear members, today is a remarkable day, and I want to share a special message with you. True Mother has said many times that we are living in the golden era. If we unite with True Mother, miracles will happen. I believe many of you have witnessed such miracles.

So unity with True Mother is our first concern. On that note, she has just given us a mission starting today, July 3rd. True Mother has initiated a 40-day special condition, a devotional condition, both of prayer and substance, with practical applications. The theme of this special 40-day period is "Let's Meet True Father."

And we will endeavor to do our best in this 40-day leading up to the special 10th anniversary of True Father's Holy Ascension, which will be celebrated in Korea, with the entire world invited to participate.

At our regional Relaunch leadership workshop in Thailand, where 120 leaders participated both in person and online, we worked to simplify our strategies for the next six months. We stated that the central focus of this six-month approach is internal church growth. Church growth is not only about witnessing to new members but also about witnessing to each other first.

I've asked every national and center leader across the region to focus on just one or two key areas beginning with church growth: Finding out how they are doing and how are our blessed families doing. How are our second-generation blessed children doing? How are our new and old members, the members we see weekly, and the members that we haven't seen, perhaps in several months? How are they all doing? I believe this is the core of what True Mother is asking us to do for the next 40-days.

I know that every family, community, and national problem is different. So I've asked all leaders to pay attention to the unique circumstances of each area. Nation by nation, and center by center, they have set specific goals for the next six months, with a concentrated acceleration over the next 40 days. Our strategies and plans will help us, but fundamentally this is about our relationship with Heavenly Parent, True Parents, and one another. That is where we will find the energy to bring great victories.

This condition includes not only prayer but action. Based on your situation, I believe God will guide you, your family, and your brothers and sisters on exactly how to realize what True Mother's asking you to do in your area. No matter the circumstances, let us all fully and efficiently participate in this special 40-day.

For example, there may be members that you haven't seen in a while. Pray about them and reach out to them. Spend time together, and invite them maybe for PeaceNet or Sunday service. Or this could be an opportunity to bring your Ambassadors for Peace or VIPs closer to our core activities. It is essential to

care for our blessed children. We can spend quality time with them, reach out to them, and ask them what they need and how they would like to participate and contribute to the Heavenly Parent's Holy Community in their area. Some of us have the opportunity to reach out to HTM-blessed families, while others can be mobilized to witness young people at universities and schools. Heavenly Parent has a unique plan for each area, and I'm hoping that every member of Asia Pacific One can participate in this special 40-day period of devotion.

We're getting ready to meet True Father. This isn't just about August. It is also a culture we want to ignite for the next six months for the next 60 months leading up to 2027. I believe God will guide each of us directly.

Until now, many of us have understood the 6,000-year course of human history from the perspective of the divine principle that we were taught. But as True Father prophesied, more details would need to be revealed in the future. True Mother is teaching us a deeper essence that we perhaps weren't ready to understand before. The true significance and meaning of who True Mother is as the only begotten daughter is fundamental to understanding human history and our responsibility in it. Through that understanding, we can understand more deeply who True Father is and who True Parents are. They're not separate. They are completely one with God, and this is amazing. When you think about Mother's theme, "Let's Meet True Father," this isn't just meeting the True Father that we already knew in some sense; otherwise, the theme could be, "Let's See True Father." This theme, in some way, seems to indicate we are meeting him for the first time; that's exciting.

It also means we must renew ourselves during this period of 40-days.

So today, we begin anew. And somehow, quite miraculously, the Jeongseong that True Mother is asking us to offer is exactly what we have been planning to do since the Relaunch workshop. Thanks to her great blessing and acceleration power, we are going forward!

We are going to be witnessing new members. You can invite people to PeaceNet. You can invite people to Sunday service and other events. By the conclusion of these 40 days of devotion, we should be asking all of these people, members, second generation, and guests alike, to join us and participate in these special events surrounding the 10th anniversary of True Father's Holy Ascension with True Mother in Korea online.

And we will be holding two-day and five-day workshops.

True Mother is not only focusing on remembering True Father and all of the great works of our True Parents over the last 60 years but moving forward into the new era to 2027 and beyond.

So dear members, brothers, sisters, young and old, first and second generations, those of you who are single, those who are blessed, all of you equally, please participate. Ask one another, ask your parents, and ask your leader how you can contribute. And commit to the next 40 days to completely revolutionize the culture in Asia Pacific One, not only to be internally aligned and united with True Mother but externally, wholly, and substantially aligned with our True Mother. We will see miracles will occur.

Discuss with your family, your center members, and your brothers and sisters. Make a plan and follow through with that plan, and report what you see. I'm very much looking forward to hearing your testimonies, and I know that True Mother is also looking forward to hearing them.

The Heavenly Parent's Holy Community is a community of blossoming results, not just sharing big numbers but sharing genuine and sincere breakthroughs of the heart in our own families, communities, nations, and regions. Let us go forward together with that kind of spirit. Let us build this Heavenly Parent's Holy Community together and bring substantial results from the heart over the next 40 days.

Brothers and sisters, I'm excited about this significant new era, where Mother is guiding us directly. With or without me, it doesn't matter. God will guide you if you unite with True Mother. Please believe me. Let us work together as one and overcome all challenges together. It might not be easy, but it will be joyful if we do it together. I promise you it will be satisfying.

We love you -- so much love from my family to you and your families and your loved ones and friends. Let us have an amazing condition and prepare to bring the most incredible, tearful, and breakthrough testimonies for our True Mother as we prepare to meet True Father this August.

Aju! God bless you. Thank you so much.
