September 5, 2023

Dear Family,

What's the Latest?

I am writing to you from Chicago. We just concluded the 14th Cheon Shim Won Rebirth Workshop in Chicago (or as we have now come to refer to it as the Cheon Shim Won Rebirth Experience). It was a wonderful experience.

111 days ago, True Mother suggested I visit the Cheon Shim Won to pray for my new mission before departing to USA, and I did so immediately. During that prayer, I received a message from Heaven that America is ready for a rebirth - a Cheon Il Guk rebirth centering on True Mother - and that the Cheon Shim Won would be integral to that process.

That is what I've been focusing on for the last 100 days since the inauguration. During my first two 40-day conditions these workshops were conducted in Las Vegas. And upon the eve of the third 40-day condition I felt heaven guiding me now to reach out to members locally through the major communities. If you have not yet participated, I look forward to seeing you at the next one. I am now on my way to Chicago.

A New Spirit in Chung Pyung

While still in Korea Yumiko and I had the pleasure of meeting Rev. Lee Gi Song, **Mrs. Myeong Ok Kim**, and other HJ CheonBo leaders and staff. Attending the Cheon Shim Won prayer vigils and hearing about the many miracles that are occurring in Korea, we noticed that there is a new and embracing spirit in the Chung Pyung providence. We are finally entering the renewed era of spirit and truth under True Mother's leadership, which is now on the foundation of the Cheonwon Gung dedication. Something new is happening.

Across Korea, Mrs. Kim has been visiting local churches every week, offering special ansu and counseling to remove stubborn spirits. It is not just her strong ansu, but also the very loving spirit emanating from True Mother's leadership. The testimonies are spreading and more members are coming back to the spirit of the early church.

Yumiko and I strongly felt that we wanted to bring that spirit back to America, and so we requested if it would be possible to invite Mrs. Kim, even though she is fully booked through to the end of the year.

Their first response was that they thought Americans don't like strong ansu. Well, I have to say, it is very strong. Yumiko and I both had a session with her. It was painful, but we felt great, and since when do we let other people conclude that Americans can't handle a challenge? After hearing my confident determination, they got permission from True Mother to adjust their entire schedule for the sake of helping our members in America, ASAP. Conclusion? Mrs. Kim and the team are on their way.

Announcing: Awaken, A New Era, A New History

There will be two major workshops. One at IPEC, Las Vegas (Sep. 27-29), and one at Belvedere (Oct. 2-4). My desire is to be able to offer the latest spirit and truth from Chung Pyung regarding spiritual liberation, as well as the core content from the Rebirth Experience, therefore Yumiko and I plan to attend both of these workshops personally.

During the three days, we will hear from Mrs. Kim about the liberation of central evil spirits, have the opportunity for special counseling sessions with Mrs. Kim and her team, and discover some of the hidden pearls from Mother's heart that I have been conveying to our leaders and members.

Registration and further information will be available shortly, but please save the suitable dates for you and your family. In the meantime, please see below the suggested videos to prepare for your experience, as well as further information on Mrs. Kim and the removal of central evil spirits providence.

I believe this is the next step for us in sparking a new great awakening in America, starting with ourselves. Let us Awaken and liberate our spirits so we can be fully reborn for this new era.

I have a dream, that America, the Elder Son Nation, will stand as the nation of true hyojeong. My prayer is that hyojeong will be the final great American export to the many nations of the world, and that we will finally stand up to fully support the Father and Mother Nations as a filial child.

Let us become a church that attends Heavenly Parent in the era of CIG as True Mother is teaching us to do. We are no longer in the wilderness. It is a new era. A new history. Together we are writing a totally new book.

I look forward to seeing you in either IPEC, or Belvedere, or both.

Rev. Demian Dunkley

Regional Chair and President

The Hyojeong Family Counseling Center

What Mrs. Kim does:

1. Tours churches and offers counseling to people with spiritual and psychological problems.
2. Liberates the central evil spirits of the members through special education and ansu.
3. Analyzes special cases to discern whether the issues are actually spiritual or psychological, along with the necessary counseling.
5. Those with strong spiritual problems, resentment, or require liberation from very strong central evil spirits are guided to attend the Chung Pyung 40-day, or receive the long-term healing programs at Chung Pyung.
6. For simpler issues, special treatment is performed on site and guidance is provided to the members.

The Hyojeong Family Counseling Center is part of the Family Counseling Department of the International Headquarters. Here, blessed families can inherit True Parents' hearts, and on this healthy foundation they are able to be reborn, resurrected, and accomplish the four-position foundation. We run education programs and counseling services to support people as they seek to become CheonBo families.

Through counseling, we strive to heal various kinds of problems by providing a non-judgmental and safe environment where we listen and empathize with blessed family members as they share their personal problems, familial issues and physical and spiritual difficulties, help them to strengthen their minds to create a happy life.

In addition, so that blessed families around the world can truly become the owners of a happy life, we are creating an environment where Korean, Japanese and international members from the 1st, 2nd, and 3rd generations from any country can receive counseling.

It is our sincere hope that this Cheonshim Won, the homeland of devotion much loved by True Parents which is the foundation and starting point of the Hyojeong Blessed Family Counseling Center enable and promote positive change as brothers and sisters share and address their problems and difficulties, and that this be an opportunity for each member to be reborn and start fresh as a healthy child of Heavenly Parent and True Parents.
