As the relations between China and Russia are a hot topic UPF Slovakia invited PhDr. Igor Cibula to explain the background and context of their relationship since those nations have the key to peace or war now.

There was great interest and the hall was filled to the last seat by about 50 participants.

The analysis of Beijing's efforts to end the war in Ukraine was enlightening too. Mr. Cibula is a renowned analyst and is often interviewed by various media.

He also mentioned his participation at one of our ACL conferences in New York over 30 years ago.
