The AFP Reunion was one event in a series of events comprising the MLK, Jr. Celebration 2017. For over 24 years the MLK, Jr. Task Force of Cary has annually celebrated the life, work, and vision of Dr. Martin Luther King, Jr. Events are designed to educate, inspire, and challenge us all to create a welcoming, inclusive community that operates in an atmosphere of cooperation, respect, and understanding all year long. UPF of NC is proud to be a community partner and appreciates the

opportunity to collaborate on the AFP Reunion 2017 event. In North Carolina, we believe that community partners work when we serve and support each other.

Many thanks to all individuals and groups who resolved to be involved because the “why” is so great. Without their time, talent and energy, this event would not have been possible. This event was a reunion of national, state and community leaders focusing on a culture of peace. A video of Dr. King’s historic letter from Birmingham jail was shown by Triangle Family Church member Jack Hopper. The program concluded with a sumptuous lunch shared by all. While at lunch, discussions groups were created at each table and participants shared their personal thoughts on peace and family values.

“Let there be peace on earth and let it begin with me”, inspiring words and song and one united prayer circle concluded our day of celebration. Until our next Ambassadors for Peace Annual Reunion 2018. God bless everyone!
