

Overview of entire workshop - Jeong Ok Yu - January 31, 2010

FINAL VERSION

First European Education Session: "Proclaiming the Completion of the Liberated Realm of the Portion of Responsibility in Gods Providential History". January 24-31, 2010. The lectures were translated by Tim Elder from Korean into English. Rev. Yoo spoke very fast and enthusiastically. There were around 200 members present, five to six lectures given per day. Excellent Italian food! The snow outside created a peaceful environment. The Hotel San Guiseppe is located on top of a hill overlooking San Marino.

Sunday: January 24th, 2010

There were celebration and seminars in Hawai King Garden in 2007.....True Father always establishes gardens connected to events of historic importance - East, North Garden etc. The Original-Divine Principle (ODP) seminars started in Hawai, where the highest peak of the world rises. Mount Kona is higher than Mount Everest if measured from his foundation at the bottom of the ocean. On top of his peak True Parents offered in tears their prayers. Now after entering CIK the time has come to teach the ODP. Elder brother Yo-Han Lee who was a great teacher and is now over 90 years old, listened to ODP two times and was really impressed.

Monday: January 25th, 2010

We need a family so that we experience substantially what parental love really is. The family is also the most vital part of society. If our nations are in trouble then we should focus on the families. Without fixing the families we cannot save the nation or the world. The family must be centered on absolute sex, love and lineage. The parents must protect the sexual purity of the lineage. Pledge to do so! For this reason we recite the Family Pledge. Animals have a skeleton which enables them to stand, the bone structure of the family is the Family Pledge - it allows the family to stand upright. The constitution of CIK is not made by earthly laws but contains the laws of the true family of God. The pledge connects us with God and that is the reason we should recite it every day. It opens the gate to Heaven, it is the key. Heaven we cannot enter alone - we need a key. Jesus spoke about the need of a key too. This key is the God-centered family. We can pray as individuals but God will not answer if we are not praying centering on the law of Heaven contained in the Divine Principle. The Family Pledge is the prayer of prayers. Nevertheless we have to live according to the pledge. We have to become the substantiation of its contents. The FP is the result of all the battles fought by our True Parents, it contains everything what they have accomplished. If husband and wife

or siblings are fighting they are not qualified to recite the pledge. First unity must be established. As long as we are connected to the fallen emotions of this world we have nothing to pledge for. We cannot go to Heaven by praying a lot, we have to substantiate the FP. We receive training in the family – how to become absolutely one. Let us get rid of everything inherited from Satan.

When Father arrived in Kodiak and spoke about the Peace Messages, he dedicated four days to elaborate on the verses one after the other. He asked me and others if we live that. No one could say “Yes” and we very ashamed. Every verse includes much to think about what we need to accomplish. If we do not understand the FP we do not understand the Peace Messages. The first verse speaks about GIK centering on True Love. Some members recite it slowly, some very fast. Either way we should unite in spirit with every single word. It could take a full week to discuss the contents. The 14th Peace Message gives some important explanation. Even Jesus said “When two or three people come together, I shall come among them.....”. We do not speak about True Parents family but our own family who needs to accomplish absolute unity. Everyone is the owner of CIK based on three generations....

We need to experience the love of a mother, and the love of a father. My existence came about because of them! True human beings are the result of the sexual organs of one couple centered on God. Who believes that God has reproductive organs? This is serious question. All living beings come from a mother, but the female needs the seed from the male. We may conclude that within God is something which resembles the reproductive organs of the male and the female. Also theologians have to think about that! How can God have sexual organs? Without them we cannot exist and establish the Kingdom, we need pure sexual organs to come into existence. With what did you create your children, with your hands? Because Satan used the sexual organ to destroy man, we curse the sexual organs. The pure lineage will bring us back to the world which God envisioned. The sexual organ plays a vital role in establishing the Kingdom. This is also a core teaching of the Divine Principle. I asked Father, why he did not include this aspect in the pledge? Father said “Because they would have killed me for that....” We need to wait until the time is ripe. It is our responsibility to guard and maintain sexual purity. The leaders of society do not understand this they have no solution for family breakdown.

What is the original homeland? It is the world of creation. The Kingdom needs to be established on Earth like the mind needs the body. All family members have to cooperate to establish the kingdom. God is not building it for you - it is human responsibility. We are the owner of the nation. Even if all people are sleeping, the owner cannot sleep. The children may

be sleeping but the father cannot sleep because he is responsible. The owner must take an interest to protect his realm of dominion. How much are we concerned with CIK? As the owners, we have to have the most interest in its progress: How can I establish the original homeland? Put that in your conscience!

Verse 2 we can achieve only after we have fulfilled Verse 1. We cannot shout "Oh God, come in our family!" God cannot come. If we substantiate Verse 1 and 2, God will come automatically. The good spirits will be drawn to us too. Every day attend God and True Parents in your family! Parents which are the cause of our existence are the natural center of attention. Think – I am born because of my mother and father united in love. We should not think of them as separate beings. If the first parents had not fallen, they would be one, and the following generations would live in unity. Everyone would refer to God as "father", all generations of a family would call him "father". The parents sacrifice everything for their children. We love the parents with all our heart because they sacrificed everything for us. There is no peaceful world because of the separation of husband and wife. Only united couples can establish a peaceful world.

Patriots are willing to sacrifice everything for the nation which we call GIK. As patriots we have to love all people living in that nation. It is not enough to love all the men and women of the nations but need to love also the one we are married with. Many people treasure the Four Great Saints who sacrificed their lives for the ideal world. We should follow the eternal laws of CIK here on Earth and in Heaven. We have to follow the laws of the unified nation and the laws of the heavenly palace. Only the person who can do that we call "divine son" or the "divine daughter". The divine child lives according to the heavenly law. We think that we have accomplished all this. No, not true – only True Parents have accomplished that, not our family. True Parents gave the Blessing to the Four Saints, this is an incredible thing. One brother who had cancer and went to the Spirit World was asked by the spirits over and over again "what did you do on Earth"? He said that he gave VOC lectures etc. The spirits were not satisfied and asked the same question until he begged God to let him return once more to the Earth. He wanted to do pastoral work. God gave him a second chance. Slowly the brother recovered and regained strength. In the years after – and he is doing that until today – this brother established more churches than anybody else.

Everyday we should unite with the Spirit World as our partner. How can we advance the unification of Spirit and Physical World? We cannot rest or retreat. Invest into the advancement of the unity of both worlds in your daily life! If the parents and children, husband and wife cooperate, the unity will grow.

Verse 6 says that we represent the True Parents. Even if the family fortune is very big – if the nation crumbles, our family will be destroyed. To follow Gods Will makes you inherit the heavenly fortune automatically. If God walks to the West, we have to follow. If God walks to the East, we have to follow. If parents lose their children, they cannot sit down but will search everywhere. The heavenly fortune is not for our church, but for all people. God has so many things to give you. We cannot hear his voice because we speak different languages. Still we think it is okay to speak different languages. If you are going to the Spirit World you should be able to say “Oh, I have blessed hundreds, thousands of people to become Gods children”. This person will be the most appreciated person in the Spirit World. There is nothing more precious than to pass on the Blessing. Once we live for the sake of others, the Culture of Heart is established.

Verse 8, why we speak about the Completed Testament Age – it is the age of the Blessing, the age to receive directly Gods World. The people in the Spirit World still have original sin. Only when all are restored and liberated, the Kingdom will be easy to establish. We need to establish a Blessing movement. The Spirit World Union will be established in 2013, after there will take incredible changes in this world. We should prepare for that happening. True Parents already prepare for that, they look forward for that to happen.

The Unification Principle is not only for our own members but for all people. If we continue this way there is no hope. We need to resolve all human problems. The Principle teaches how to resolve all conflicts in the world. The conflict came about because of one couple, later it produced a multitude of different problems. The first step towards conflict solution is to seek God. The answers will change our lives. Every single person in the past, present and future struggles with the same fundamental problems. Change first the view, than the change of behavior will follow. Let us examine the human structure in the mental sphere. The body follows the mind, reflects the mind. The first step includes a change of mind and heart. The solution to world problems lies within us. Usually we think “Oh, how terrible these politicians are...” This is completely wrong way of thinking! We need to look into our hearts...

The present family breakdown is more terrible than a natural disaster or economic breakdown in a nation. Right now mankind has reached a state where it cannot go further on. Even blessed families are breaking up but people in the fallen world think that this not a tragedy but “normal”. Just look how famous actresses live, they have no centre in their lives, no rules. No one can resolve this chaos except God. If we separate from God

we cannot do anything. We should become true sons and daughters of God and raise children in this spirit. This is a very serious task. All these tragedies have to do with the sexual organs. Satan knew how God wanted to create the ideal family, so he destroyed the instruments -defiling the sexual organs.

There women marrying women, man a man. All animals look for the opposite sex, all of creation acts principled in matters of sex. San Francisco is the metropolis of homosexuals and politicians who want to be elected need their votes and cannot oppose homosexuality. Nobody can stop young people from engaging in premature sexual activities. The 21st century will not be judged like in the Bible, but there are sexual transmitted diseases which wipe out mankind. Example: a Korean business went abroad, later after returning he went to hospital was tested HIV positive. He made it very clear that he had only sex with his wife, after some more tests his wife was found to be HIV infected. They discovered that in the absence of the husband she went swimming and had an affair with the swimming teacher. Actually, the wife had infected the husband. The schools have violence problems because the children do not know the purpose of life. They become restless and upset easily, tend to harass others because they are ignorant of the value of human life. Racial problems exist because people cannot accept each other as a child of God. In nature we see no national borders, there are only different climate regions etc. There are conflicts of ideologies like Communism against Democracy, atheism against religions, etc. There is environmental pollution. If the ocean temperature changes there will be serious problems. All summits had no or little result because the big nations dominate the smaller ones and are motivated by self-interest. There are countries which throw away food, and others who cannot provide basic foods. In poor countries there are also intelligent children who do not receive education and live a miserable life in ignorance. True Parents have opened the gates to the highest region. If people are not properly prepared they have incredible difficulties in their life thereafter. How we live here on earth is more precious than to reach the position of a president. Even religious leaders live in line with fallen nature...

All these issues are related to the question of absolute sexual purity. The time is coming, do not be confused, be prepared! The new age is coming! Let us teach the fundamental principles of life. We need to be the masters of the new age. The Unification principle needs to become known in the world, we all should teach the Principle as long as we live in this world. The Principle alone can establish absolute value centered society. Clarify what is true and what is false! I was in Japan for 10 years but many Japanese still do not know what happened in Korea during the colonial rule. In Japan the Koreans fight each other. Even Father could not bring them together

for many years. Recently, I gave lectures to both groups. At the beginning they were very suspicious. I lectured about the Principle and they were accusing me to make them church members. So they moved out of the lecture room. After some negotiations, they returned but nobody wanted to pray, nobody wanted to close the eyes. They were so suspicious. But after giving the first lecture nobody wanted to leave the room! At the beginning some people even refused to shake hands! After listening and accepting our Principle the two groups had no problem to communicate with each other. For 61 years they could not become one because they had different value system, ideologies. As soon as they listened to our lectures, the doors were opened.

For creating a peaceful unified world we need to teach the Principle. The Fall came about with denial of God. Each individual, mind and body has to unite. If man and woman are divided, conflicts multiply. Another reason is to know the "true self". Ask the question, who you really are – are you a true or a false person? Are you a daughter of God? The princess in the palace who has an affair with a bandit and bears children – whose children they are? Children of the palace, or are they children of the bandit? Fallen people do not want to acknowledge that they are the result of a great sin, that they carry a faulty lineage in them. Say "Yes, I am the result of the Fall"! We need to face our contradictions, resolve the conflicts in us and with the people around us. Our selfish mind is the mind of Satan. If we continue to live centering on that evil mind, we cause misfortune and sadness. The Fall also means that human beings fell into ignorance. Mankind first lost God, second the original nature, third the ideal family, fourth the creation....

We do not know the nature, character and situation of God. We do not understand God clearly, we make a lot of problems. Mankind tries to blame God for the existing problems. They confuse things constantly. Sexual desire cannot be repressed because it originates in God. Sexual problems need to be solved in line with God's concept of restoration. Religious people tried to avoid moral problems by refraining from sex. But fallen mankind multiplies and grows. Everyone wants to marry though divorce is rampant - it is part of original nature, inherent nature. More than to prepare for university, young people should prepare for married life. If you want to drive on the highway you need a license. Just to know how to drive well does not help, you must get the license; otherwise the police may arrest you. Study how to live a true life! Like a missile the Word of God transports you to outer space. Our ODP lectures serve as the fuel of the missile. The Word created the world says the Bible. If I am not moved by the Word, you will not be moved. We need to know how to convey the emotions of God. Sometimes when I speak with the power of a missile, the listeners are moved. The lecturer needs to be moved first, that is the

precondition to pass on the Word. Not because I speak well, but because God moves my heart this seminar can be successful. Even science tries to find the basic value system...

Christianity is standing in the position of the Bride, but in reality is not able to stand up to its providential mission. Christians should teach about Esau and Jacob, and that God is the parents, the ideal of the true family, etc. Jesus wanted to establish the husband-wife relationship but had to remain on the bridegroom-bride level. He could not experience marriage substantially. The Jews considered God so holy that they even did not dare to write His name, they left an empty space in the Scriptures. When Jesus spoke about the "father" they considered it a blasphemy. They also mocked him as "illegitimate child". The churches today tend to be secularized – we have to change that. The early church leader led not comfortable lives like we do. We must teach Christians what is right and what is wrong. Jesus was treated as the worst criminal when he was nailed on the cross. Like the Jews the Christians could not receive what TF was preaching. God and the Messiah were sent into the wilderness when TF was sent into hell in prison. A most tragic situation! Until today TP try to regain the foundation during their worldtours. They themselves spread the new revelations which actually Christians should have done...

When TF reached the age of 40, he should have completed his mission. The first church HQ was so small that only few people could sit down inside, the neighbors took down the sign at the door and treated it with contempt. We asked, why they such things!? The UC is in the position of the younger brother, so we have to unite with the elder brothers. We do that with the Holy Spirit which manifests in true love. Without true love we cannot unite Christianity. Now the HSA UWC has been taken down and was replaced with the FFWPU sign, because we focus now on the family level. We are all wild olive trees, the first generation. There are still the roots, but if we nurture the shoots they can produce good fruits which manifest in the blessed children, the second generation. We need to offer the fruit to God. If the second generation does not stand upright we and the world have no future! Christians should not just believe in Jesus but become like Jesus. Believers should resemble the image of Christ.

We have to change Satan's lineage to God's lineage step-by-step. The Holy Wine is a medicine created by God. But we cannot call it a "medicine" because the government authorities would research it. There is no commission to investigate the Holy Wine. But people would go wild if they would know the impact of the Holy Wine. They would do anything to get it. The HW ceremony is very sacred and very precious. If in a country all people drink the Holy Wine but a few do not take it and stay on Satan's side, the CIK is not complete. Count all your ancestors together who are in

the Spirit World: if we liberate and bless them all, we stand on top of a nation of 1 million people and more. Imagine what a blessing it will be for you! We should not lend our ears to the world on Satan's side, but keep prepared like Noah before the Flood came and destroyed everything. True Father said that there will be no extension of the providence, like it happened several times in history. Until 2013 everything has to be ready.

When I joined the church we had a 6 month probation period before we were allowed to sign the membership form. Now everything is so easy, we do not even sign a paper for receiving the Holy Wine. When we put only one drop of the Holy Wine on our tongue the spirits are so eager to get it. We have established home churches, what do we do there? We have to teach the Word, also to the children. HDH we do as a whole family so that the children also get the Word. We do not say "Please come to our church...." No, we give them the teaching in their homes, also the Holy Wine. We read the textbooks in their family, pray in their family, establish an altar in their homes. Even if the home is very small, there should be an altar, maybe only a desk. This is the place where the Holy Wine and Salt are multiplied. Use the materials we have, for example the Peace Messages. Pray with the children at the altar, and make them attend the altar. Train yourselves and train your children to keep the tradition. The altar is the most holy place in the home, and the children should learn to respect the altar. If we live the same way as others, God has no place to stay...

Are we living like a family blessed by God? We must not become a family which brings sadness to God.

Through receiving the Holy Wine, the gate to Heaven is opened. One leader complained that he works so hard in America, and that the Christians are not responding so well. Father asked him, "Who received the blessing – you or Jesus?" Of course, we are in a more fortunate position and we should take care of Christians. Christianity lost the capability to understand the providence they lost sense of direction and dwell on rituals and traditions. The first Christians were singing when facing the lions in the arena. Tens of thousands were martyred. Even Martin Luther started the Reformation by risking his life. But today, who is willing to die for their faith? We want to give the Blessing so much, because the early Christians gave so much. People who oppose us will be removed further and further away...

In the early years we were singing the same song over and over again; members were overcome by the Spirit, they sang the same song 12 times. Sometimes members were moved from one place in the room to the opposite side by some invisible power. At that time we had maybe only one or two meals a day. That is how it began. One member saw a dog

eating and said to him "You have food from your master but I have nothing". He grabbed the dog at his ears to make place; he did not want to move from his bowl. When the wives went pioneering, in one case the wife went to mission and left the child behind. The husband served in the military and had no other chance than to run home to take the small child and bring it to the military camp secretly. There he was making cloth from the military dresses for the infant. One day his superiors found out that there is an infant in the army; finally one officer took the child to his home. Such and other incredible stories happened. We live a very comfortable life in comparison!

In each age God has established a central figure and gave him his Word. Many parts of the Bible are in figurative language but there was the promise to speak no longer in pictures. In regard to the capacity of his audience Jesus also said that they "cannot bear more to hear". True Parents speak very clear and not in pictures. They fulfill also the Bible in regard to "prophecy to many nations". When all people of the world become blessed CIK will be established. With Satanic people in our midst the ideal nation cannot be established. Christians think that the ideal world comes about by belief in Jesus, but that is not true. Salvation does not come this way - salvation is restoration, to recover the things which are lost. Only the Principle explains clearly the path. The Principle - Father discovered it by fighting millions devils in the Spirit World: It was like going down 10,000 m below the surface of the ocean to pick up one grain of sand at the bottom. Piece for piece of the great truth has been collected with that much effort. Almost impossible to imagine these difficulties! We look at the picture and say "True Parents" not comprehending their significance...

The creation of beings did not just happen, there was first a blue print of the being before it was created. Before we understand a being we must understand why it was created in the first place. Nothing can live and behave as it wishes but in congruence with the purpose of its creation in the first place. We should be people who live in accordance with the Principle of creation. Do not evaluate people in terms of money, or status and power - they do not count in the Spirit World. All people should live in the context of the Principle of Creation. Father said that the Principle of Creation is so precious that it should be engraved into a plate of gold. The time has come that scientist are finding evidence for the existence of God. Their explanations open the gate for our teaching. The Unification Principle is a clear picture of God. The Bible answers the question of Moses with "I am who I am". The Israelites were in great trouble when asked "Who is sending you?" What could they say? They could not explain about God. Later there was the explanation that Creation reflects the Creator, as St. Paul wrote.

First were established the laws, like the law of cause-effect. There is nothing without a (hidden) cause, origin. The children resemble the parents or some ancestor. We cannot understand nature without knowing God and his purpose. People who deny God cannot understand nature deeply and profoundly. Karl Marx could not understand that matter has an internal aspect which makes things work. His thinking is still accepted but it is wrong. God rules creation according to his laws which he created. The process of creation passed through 6 stages until human beings came into existence. The first cause is the fundamental cause which moves everything. The concept of the "Intelligent Design" makes clear that the blue print exists in the mind of the Creator before it received substance. The dog likes to be owned. It has such a mind; of course it wants an owner who loves dogs. Pine trees in Korea are the same as here. They do not change deliberately; they are such for thousands of years and thousands of kilometers apart.

God has a body though we cannot see it. There is a mind and body within God, the original HS and SS as stated in the Divine Principle. What is the difference between man and woman? Is it the nose, ears, mouth? We identify the sex of a person by the form of his reproductive organs! The professors were shocked because our lectures mention the sexual organs; they could not understand why Rev. Moons speeches included sections about the concave and convex. Father mentioned that even Rev. Kwak did not understand why he was doing that. In 1995-1998 he spoke about it at conferences with top politicians in the USA and South America. People were shocked and wondered what that is that all about? Father "reduced" the wives of dignitaries like prime ministers to the "sexual organ". If True Mother hears Father talking she thinks it is quite natural, she is not upset.

Into the woman the seed would have been planted by God, if Adam and Eve did not fall. The body which carries the mind must also keep the law of the Principle, function in accordance with the Principle. Our responsibility is to make our mind resemble God. We do not speculate "What was first – the hen or the egg?" because everything exists as a harmonious entity in God. Our theory is a "Unitarian" philosophy. We should not be vague about Gods existence because He is our parents. We cannot fight each other because we have the same parents. Why do people fight? They do so because they do not know God. Without God there is no eternal peace or happiness. When there is a couple and the husband is not able to make any money and his wife is employed and makes a lot of money, still he stands in the subject position. If women own everything then disaster is immanent. The seed for the children – from whom does it actually come in the first place? This is a question of ownership. Why the father is in the internal position? Because the father gave the seed, the seed is internal.

The female body is external. God envisioned woman first, then he created man so that he would fit to woman.

If man and woman unite with the time emerging the woman becomes more masculine and the man becomes more feminine. We resemble more and more the harmonious original entity within God. Even the greatest man comes from the womb of a woman. Without woman no life comes in existence. The key is harmonious interaction, the Principle law and order. The original body of absolute sex which comes from God; the couple must become the original body of absolute sex.

We cannot say exactly what the mind looks like, the components are unknown. When the mind leaves the body it is going somewhere, we can sense the absence of "something". Where does God exist? There is no place, where God does not exist. He has eternal life and infinite power. Measure him – how many kilograms would he weigh? He has not a body because somebody would want to control God. God is an infinite spirit and infinite power. One day I heard a voice in my heart asking "How do you know that I am a God of love? Do you just use my name because you do know otherwise?" I was not able to say His name for a long time, I was so upset! God had to wait so long for the creation of his children and in one night everything was taken from Him. When he lost His only son God had nothing worthy to live for. Try to understand the inner heart of such a father! This is the only way to understand God's heart!

I met not a father but a mother who had a son in the army. The only son of three generations was killed while on duty. When the mother who worked in the market place heard about his death, she just fell to the ground, absolutely desperate crying for long hours. One day I heard a woman crying in the forest. It was heavy raining but she was at the tomb of her child scratching the earth in pain, she would not leave the burial ground. So, even fallen humans have so deep emotions when losing their loved ones. When the parents lose their child they remember it as long as they live. I heard about this story which was broadcast in TV: One father had lost his only son in an accident. Afterwards he went to a restaurant where his son usually went and he ordered all the food his son used to eat and left the restaurant in tears. When Hyo Jin Nim died and True Father heard about his death he sat three days in front of the television. He could not concentrate on anything, but would not move away. I asked why he stayed there. Father said that he cannot sleep. One time when they traveled in the air plane from South America, True Father called Hyo Jin Nim to him and said that he is so sorry that he could not do the things usually fathers do with their sons like fishing together or going to the fun park. And then he cried deeply. Hyo Jin Nim went to the rear of the plane and also cried deeply. When his son died Father said to him, "I could not do anything for you during your life on earth..."

The first 120 couples should have protected the True Family but we did not fulfill our mission. We centered on our own children. The True Children were lonely while their parents battled against Satan. Those who know True Family know what I am talking about. They were attacked by the satanic world. When our children do wrong we start to excuse "Oh, you know - even the true children do things like that..."

Every being resembles God and also has unique features. Even twins do not completely resemble each other. Not only the species as a collective resembles some aspects of God but also the individual of a certain species resembles individual aspects of God. Only through Shimjung love we can become people of good character. If we are not motivated by the innermost heart we do not create quality things. You can see that with food - parents feed chips and other unhealthy food to their children. This is very superficial care; they are not investing their heart when preparing food for their children. They should give wholesome food to their children.

God is a God of character, and we should become people of character too. All emotion have individual aspects. We like different things, and we feel great emotions for different things. If God becomes angry the whole universe will shake. If God is joyful the whole universe will dance. God lamented so loudly when He lost His children. He was so lonely because he had nobody to share his emotions with. He lamented more than anybody in human history. Nowadays they say "man is a social animal" or a "high level animal". Only because we move like horses or sing like birds? We are created as sons and daughters of God; the animal-concept is the work of communists who deny the spirit. The head gives direction to both, the right foot and the left foot. Left and right receive the same order, the same amount of love. Through the Fall the flow of love from the Shimjung heart was cut off.

Does the woman come to man, or does the man comes to the woman? The woman goes to man to find the seed. She goes to the man s house and attends the in-laws. When both parents become sick whom does she attend - her own parents or the in-laws? The Shimjung is pulling her towards her own parents.

Had Adam and Eve become one with God, during their intercourse the sperm of Adam would become one with God. They should have asked God to give permission to use the sexual organ. God would have given His blessing for them to come together. God uses the body of sinless man and woman. He created them to share love; he wanted to love substantially with a physical body. He wanted to multiply children using the body of Adam and Eve. We see some things but not everything. For instance we do

not see germs; if we sit at the table and could see germs on the plate we would not eat! God made it this way that we do not see everything. If we would hear all the sounds which are around us, imagine how you would feel. If we could see the minds of other people you could not stand it! Do you hear your heart beat? No, usually not. If you would hear the beat for some hours you would go crazy. We are blinking our eyes, we do not realize it. We are not conscious our breathing if we do not concentrate on it. We should not display the sexual organ in public, it should not be visible. Nowadays they expose it for commercial purpose. Eve gave the most precious to the servant. Such a precious thing has been used in the terrible ways. You must educate your children about the importance of the reproductive organs; university education is not that important. Parents have often the wrong priority. If our second generation cannot stand upright, God has no hope. We have tens of thousands of blessed children but....

Did you ever see a monkey become a human being? In all eternity it will not happen, because their seed is different. Man stays man eternally, monkey stays monkey eternally. God does not love the monkey same as human beings. The seeds of the species are different. The discussion about evolutionism has to stop. Actually God created the evolution process. Only in the context of God as creator, evolution can be interpreted correctly. The Darwinists challenged the concepts of the Christians about creation. The Christians do not know the intention and purpose of creation. God created, and created, he could not stop creating. Go to the bookstore and look – all the contents have to be changed! Only the natural sciences can remain, all other books have to be exchanged. Through the Divine Principle we can solve all fundamental questions. When human beings are perfect they resemble God, but they are not God himself. God thought about all details of the human body before creating. He gave us hair to protect the brain from the strong sunshine which could do damage....

Why does True Father ask us to take off our close in bed? Father asked couples to do that some time ago. He kept asking which of the couple practices that. A few couples did so to make Father happy. One couple did that until one day their grandchild came in and saw them like that and started to laugh, and laugh. We have to live a life of absolute sexual morality. In the Spirit World people who did illicit sex go to the lowest places. In the Spirit World a degree like Ph.D. is of no importance. We have to learn the fundamentals of life, so there we should gain perfect knowledge.

When True Father enters Spirit World he will unite it very quickly; the Four Great Saints wait for him and will assist him. True Parents have to

substantiate the ideal here on Earth first. When Father dies, the entire Spirit World will be mobilized. When Father leaves some place he goes around and touches all the furniture. He says, "I do not know if I will be ever able to touch you again." He is very desperate at the moment. He is speaking to the furniture right now. As long as we live we must be serious to support him. Will your children take your place? Nobody can teach them the contents as we can. Become true parents for your own children!

Tuesday, January 26, 2010

True Parents are the body of God, they are the only ones who can meet and communicate with God directly. It is the first time in 6,000 years that the Heavenly Kingdom can be established. The Coronation of God took place on January 13, 2001 and in 2013 it will be 12 years since. We expect some great things to take place then.

How can God think of fallen human beings as his children? Our mind must resemble God not Satan, there is no other way. We must not resemble the bad guy. Life on Earth is very short, in Spirit World we exist billions and billions of years. Our life here is very short; it is a time of preparation. There we can sense directly if a person prays a lot; also the fragrances tell us who the person is – is it the fragrance of power or true love? There we will be asked how much you loved the country in which you lived, the peoples and the members. Our task is not to preach to scholars about logic and truth, but about the Shimjung of God. If we are filled with that heart they will believe us. When we are filled with Shimjung then even a beautiful woman or a handsome man cannot tempt you. When God created things, the Shimjung within him exploded and he created with absolute love, faith and obedience. He was desperate to create certain things, like flowers according to his design, it was not easy. But God did not create my character - I must invest myself the same as he while creating the world. Persons and organizations in this world give service to others; but what is the motivation for these activities? We serve in order to develop the heart of Shimjung; this is the difference between them and us. Our service activities help to develop the character, our heart so that we can resemble God.

One important aspect is unchanging determination. True Parents are unchanging in their resolution. When the time is ready, they go forward. When Father listens to somebody, it does not mean that he changes his determination by the information he receives. We must be unchanging and eternal in our determination, and resolution. Couples must have unchanging love and faith; we cannot go to the Spirit World and excuse our failures. As parents we have to be absolute, unchanging and eternal in our devotion to our children. If parents fight, they are in big trouble in the

Spirit World. In line with Shimjung, we cannot enter Heaven if just one family member is in hell. The couple should enter Heaven together; they should take their children with them. If the wife wants to go a different way than the husband, a fight will break out between the children too.

True Father encouraged leaders to take their wives when they visit members. This is not always easy... When I talk to the members I am actually talking to my wife! We have to witness to our partner until we die; we have to raise the spirit of our partner. We need to become person of absolute faith, love and obedience as part of our character. The wife or husband must live with absolute faith in order to become the absolute owner of the sexual organ. It is our responsibility to shape our character to resemble God. If human beings fulfill this task they complete God. Christians may run away when they hear this – to complete God!? But think about it - can parents be complete without children? Only when we have children we become parents; and only if the children fulfill their responsibility the parents are completed. If children live their own lives, the parents may think it would have been better to have no children. The son may think "I do not want to get married so that I shall not receive a wife which resembles my mother." How tragic, how awful this is! There are people who do not want have children so that they will not become disappointed.

Responsibility is ingrained in our design. Why not speak about the "portion"? God and man each needs to fulfill their share. If our character is absolute, we have naturally "absolute sex". We need to establish the absolute standard otherwise we cannot join True Parents in the Spirit World.

If Adam and Eve could have been blessed into marriage, God would have experienced first time conjugal love. How to reach perfection, which method helps? People should go through Shimjung education. If parents are trained, the children will follow their example naturally. The parents will be the centre of their children's life. Many parents cannot teach their children properly. Already in kindergarten the children should have Shimjung education; the teacher should not tell just fairytales but also stories of Shimjung. Maybe you still remember the stories you heard in the kindergarten? The same is true for stories in the Bible – look for Shimjung contents! The same education is needed in high school etc. Maybe the subject of Physics does not have much Shimjung content but the teacher of physics should be motivated by Shimjung.

The grandson who attends True Parents was told to pray before breakfast. Before the breakfast was served Father was talking to members and did not stop. The grandson was eager to pray before he had to leave for

kindergarten and came and came again telling his grandfather "let us stop and have breakfast" He wanted to fulfill his mission to pray! He was so serious about it. Imagine if all blessed children would receive such education in kindergarten; it depends very much on the standard of the teacher. In school children should not only gain knowledge but form true heart relationships. The children should learn certain life rules already at the breakfast table. For example that the family starts eating only if all are gathered at the table. We decide ourselves if our family is the one God wants to be with. Most important is the contents of communication between husband and wife. The words they use have deep impact on the children. In the Western world the relationships are not clear, for example how the wife should address the husband. Father treats Mother always with tremendous respect. He asks "Where is Mother?" He knows God has been searching for such a woman for thousands of years. They converse very respectfully. They refer to each other in the highest terms of the Korean language. Some father referred to the mother as "mummy" and one day their small child asked him "How is that you call her mummy and I call her mummy too - are we brothers?" The father was so surprised about the logic of the 3 or 4-year old child.

Do you think that True Parents do have disagreements? Yes, or No? Father had to educate his wife, and she had to endure much. Women tend to react quickly. They went out if they had disagreements, sometimes for half an hour. Before you start fighting in front of children you should use that method too; if necessary go to the toilet for your argument! People who talk little make fewer mistakes; those who talk a lot make more mistakes. Husbands often do not know how to express themselves towards their wives. Father said that we need 3 years of marriage life to see why he matched the couple. Father sometimes matches uneven couples - for example the husband is good looking, the wife is ugly. Perhaps she has bad ancestors or fortune, she has very good ancestors. Our eyes do not see what Father sees! Father wants to balance the inherited features. Education of rules is something we need to establish in our church. You know the architect Aum who was a friend of Father in Japan? They had a meeting of Koreans in Japan and suddenly Father sang very passionately and loud a Korean song which was forbidden at that time. Mr. Au was so impressed that he became a friend of True Father. After meeting again, Father spoke to him for 3 days. Aum stood up, made a full bow and said that he will not refer to him as a "friend" but as "teacher". Father tests us often in order to see if we change our attitude if he rejects us.

In school our children gain only skills, there is no character education. When we receive a very expensive bonsai tree, and if we do not know how to treat it properly we will destroy this precious gift. We need the skills and knowledge to dominate creation. To become true owners, we need to

complete character education and also gain necessary knowledge and skills. If mind and body struggle we cannot succeed; we need to fully concentrate to rule creation.

There was a couple; they received in dreams guidance from True Father how to make love – for 40 days he appeared in their dreams! When he asked them if they had done the Three-day-ceremony they confessed that they have not and felt regret. They contacted the Family department how to do it...

If the wife does not like it that the husband touches her breast, God will be sad. We organized seminars for couples, and there were wives who did not want to make love. After attending the workshops one wife changed her attitude. The husband asked "What kind of education did you receive?" He became curious about the contents. If one spouse refuses the conjugal relationship he or she will have no place to stand on in the Spirit World. If the apple grows older, and stays longer on the tree it becomes sweeter and tastier. The same is true for couple relationship – sexual love should become sweeter with growing age, not because of desire but maturity of heart. If Adam and Eve would have made love, all creation would have sung songs and be pleased to watch. Love making in the Garden would be visible to all of creation. The action is not shameful; only because of the Fall love making became a shameful thing. The offspring would have become a genius. In South America it is common that pregnant mothers watch soccer in TV all time and speak about soccer all day and night hoping that the child in their womb will become a soccer star and earn much money. We have to educate the unborn with Gods Word and Shimjung. The first birthday of a child in Korea is considered as most important, even poor parents organize a big celebration. They put many different things in front of the toddler – if the baby touches first a book they say "oh, he will become a scientist" or if he touches money "he will be a business man"....

The true order of education goals is: 1st love God 2nd love humankind 3rd love the country. Scholarship and skills of any kind need to be connected with Shimjung education. When we look at a flower and know how it is created and watch it with a Shimjung heart, we will feel joy when researching it...

Even scholarship, business and company life and other spheres should be based on family ethics. Jobs are not a mere matter of earning some money. The employers should take care of his employees with the heart of a father. If one of his workers is sick he should offer money for the treatment gladly. The business world has to have also family ethics, but today it is mainly about making profits. The same is true for politics - the

politicians should feel responsible for the lives of the people and not focus on their positions. Today people think exchanging the president will make things better, but that does not happen. CIK also will have laws rooted in the Principle, principle of peace for example. Only the Divine Principle can transcend borders among nationalities, cultures, religions.

To solve problems it is not good enough to take 90 percent of Gods idea and 10 percent of mine ideas. No, 100 percent concept has to come from Gods. Perhaps one nation says "Oh we do not want to do it that way..." This nation will go down. There are poor nations where intelligent youth cannot study, and there are rich nations which lock them out and do not want to share their know-how. That is intolerable from Gods point of view. Religious conflicts make people die everyday in this world. Religion is not the key if it puts its own specific interest first. If we say that we cannot solve the problems with the help of the Principle, we just did not study it deeply enough. Love and care for others should be a natural desire in us. The unified culture which is to come, centers on Shimjung.

The Yin-yang aspects in us and in our couple must be in perfect union. We must train our hearts to go beyond the family, our own nation. Before we explore and dominate the Cosmos, we should explore and dominate our Self though in this world the opposite is true. Back in the early days of the church, Father dominated his hunger so much that he stopped eating though he was still hungry. Won-Pil Kim thought that he suffers of little appetite! In reality Father had a huge appetite but he dominated it for the sake of his followers so that they got more to eat. How to dominate sexual desire? Father said that even if 100 of the most beautiful women appear naked before you, neither your heart nor your organ should be moved. The same is valid for women in regard to handsome men. If we respond and feel desire towards them, we are not in control of ourselves. In matters of sex we have to be absolutely strict. I am working hard so that you can reach the same standard, says Father. Dominate others before you try to dominate others. Political reforms, revolutions etc. will not be fruitful if there is no revolution of heart, change of patterns of behavior. We have top University in this world, but even Oxford and Harvard cannot produce good character, ideal personalities. We need a revolution of absolute sex, not just a sexual revolution like it started in the 1960ies. Everything turned upside down because human ancestors could not maintain absolute sex. How terrible that there are priests who have sexual relationships with children! Can you see why we need absolute sex education? We must become the substantiation of absolute sex.

Every species of animals resembles God, plants or animals resemble God by species, but in the human world every person resembles God individually. If you study faces you will find out about Gods character more

details. There are unlimited numbers of images in this world which are good material to study God, find out more about his character. Let us just look at the shape of our fingers – there is a multitude of shapes in this world. All animals make specific sounds, fish different than birds. A dog can only make dog-specific sounds not sing like a bird. But humans can imitate all sounds – bark like a dog, sing like a bird, roar like a bear, etc. The planet Earth is floating in the big Cosmos, scientists still do not understand fully why and how it operates. God only knows every detail...

In Korean calendar the days of the week are not named Monday, Tuesday....Sunday but they have Earth, Fire, Wood, Water, etc. The name of the 8th day could also be interpreted as "Heavens Day". The final name of the eight day will be revealed later on – I think. The holy days are decided in accordance with the lunar calendar not because the Koreans use it but because it is closer to the original standard. Korean culture is closest to God. The western languages tend to make everything "horizontal" but the Korean language centers on the vertical order. One main theme of Fathers speeches is the heavenly tradition. What is the way? We lost the sense of direction, we are confused about what is up and what is down, what is left and what is right. The order of things and values as well as the order of human relationships are in chaos. How we arrange our cloth and shoes, everything should be done according a certain order, in principled fashion. We should focus on the center: top-centre-bottom, right-centre-left and not vice-versa.

The Universal Prime Energy is the source of all energy in the universe. The world is sustained by the energy source stemming from God. All creatures live from His energy. Any sort of energy is maintained by give-and-take actions, depending on subject and object relationships. If we have no give-and-take, there is no energy for our existence. This is valid for every level of human interaction.

Why do we have give-and-take? We need interaction for our own development. The giving comes first otherwise everyone might just wait for something to happen. Let us look into social life: the father is subject and the mother is object. Both come from the same origin. The subject-object relationship may change, and the wife becomes subject. In terms of Shimjung, the wife may be the subject. Though, we should not mix this up with "master-servant" relationship. Subject is not master, object is not servant!
Parents are subject in relation to their children but not their owners or masters.

True love naturally wants to give not expecting to receive. Never give with the expectation of receiving something in return. Look at nature – the

butterfly receives nectar from the flowers, and in return they help to spread the seed. Once in Korea they used chemicals against certain insects which eat fruit. They got rid of the insect but later on they discovered that these insects had helped to fertilize the plants. Afterwards people had to transport the seeds from plant to plant which was a quite difficult job. Everything in nature depends on specific give-and-take activity. In the early years we were so poor that during a cold winter we had no warm underwear to wear. One day we found warm underwear outside the house. We did not find out who had left it there. But such situations frequently occurred in the early years. We were so desperate doing our mission and had no resources for ourselves. Nevertheless, somebody unknown was taking care of our needs.

First we need a give-and-take action with the truth which activates our conscience. The conscience reacts to the Ten Commandments. Parents occasionally are far away, but the conscience is always with me, it will wake me up in the middle of the night. This is the reason why the conscience is above the teacher, parents or even God. We relate indirectly with God, but the conscience is in us all times, it reacts to every failure, mistake, and sin. Like the compass it says which direction we should take. When Father was going to prison in South Korea, Won-Pil Kim asked him how to continue? Father said "Just follow your conscience, it will guide you."

There was a blessed family who had two daughters. The elder one during study at the university came in contact with Marxist philosophy. One day she came home and had an argument with her father who was shocked that his daughter had joined the Left. He beat her and she ran away, later the daughter married a leftist man. This shows that even the second generation often has no idea about the Marxist ideology and may support leftist movements. I attended the True Parents when they visited Moscow. The communists had read all our books to know Rev. Moon's intentions. In the hotel in Moscow we read the speeches of Father loudly. The KGB heard everything. At the airport they led us from one place to the next and we did not know where we were. It was very secretive. There came our underground missionary. Even the KGB did not know that there was a missionary inside Russia! The missionaries wanted to liberate the Russian people. Before in the United States agents of the CIA had come and offered bullet-proof jackets. Father refused them and said that if he had to wear them in the Soviet Union all the time there was no purpose of going there.

When in the 1990ies our church invested a lot of money in Uruguay and Father went there, we found that the national leader had stolen the money. We wanted to inform the police, but Father said "No". Nobody

could understand him and we asked him again and again to let the police work. But Father said, that he had worked hard for our movement and that we should not do that. He wrote down a number and suggested how much we owed him. When the person finally came, Father gave him more money. The person bowed down to Father and left. He will be eternally indebted, he cannot have any resentment or demands all of eternity towards Father. True Parents standard does not allow any enemy relationship...

God is high and we are so low, there seems no possibility to come together. Let me give an example - a princess in a palace loves a simple man in the countryside her love will make her to come out of the palace and join her beloved one. The same is true for God and man. The love of a daughter is different than the one of the son. If a family has no daughter, the daughter-in-law will be in that position and help to relate to daughters love. The same way the son-in-laws serve families without a son.

Father has a very strong body, the chemicals in Hyungnam damaged his skin and the bones become visible. One can see the effects even today when he takes his clothes off. Nevertheless, some people expect that he will live 120 years despite this. He was born with such a strong body. His cousin testified that some male relatives were so strong that he could move the tracks (or train) of the railway. His lineage was prepared to give birth to such strong offspring.

We cannot live eternally on Earth, we pass on to the Spirit World and the children become our successors on Earth. This is the reason why we want to have offspring. In the Spirit World there are animals and plants, the ones on Earth reflect their spiritual counterparts. Father said "If you hate cats, you will not see any in the Spirit World, no way." If we cannot relate to some species of plants and animals or do not love any of them, they will not appear there. Actually we should not hate anything, but love all of creation. Living for the sake of others brings joy because it is the Principle of Life. In the original world there are no enemies, there exists no hatred. That means we can not live there if we have such feelings. Scholars do not like the term "absolute" because they think it means "final". When we had ICUS and PWPA conferences True Father always spoke about "absolute values" but the scientists could not understand or accept it. Fathers referred to God who is the source of absolute values. Shimjung produces joy by loving the object-partner. We need a substantial partner, otherwise the love is like a dream - you wake up and there is nobody. We must feel joy 24 hours day. We must maintain our bodies well.

When you have children and they do not resemble you, how do you feel? If the grandchild is born and it does not resemble any of your family members you might suspect that it is from a different lineage. If the child

does not resemble the mother at all, she might not love the child so much. So the degree of resemblance determines the degree of joy and love we feel. In the fallen world they treat the daughter-in-law poorly but we should do the opposite because she carries on the lineage. Even she is not as beautiful as your own daughter you should love her even more than your daughter. The lineage is of prime importance. I remember a sister who attended the university. She witnessed many guests whom she took to the centre. When she got matched, she was not happy. She sat in one corner and was depressed. Some leader asked her, "If you would be matched to a woman that really would be a problem. But anyway you got matched with a man, so what is the problem?" Finally she gave in and accepted, at the end they became a successful couple. This story is famous in Korea. If in Europe there would exist only one woman, and even if she would be ugly all the men would start to fight to get her. We should understand the value of each individual man and woman from their unique value to carry on the lineage. Say often absolute sex – even you cannot stand to hear it – because it is so important. This concerns the very essence of human responsibility. The absolute sex education is our responsibility. Even if you would lose your life you must defend your chastity.

Giving a name to a child in the Orient is a very important art because the given name may influence the fate of the child. Father gave the children of the 1,800 Couple Blessing a special name, all the children share the same name like in True Family there are grandchildren named "Shin...". Each member of the family shares a certain character. But this does not apply for western children. Father wanted all children of this Blessing should share some character in their names. Also the position within the sibling is important – child which represents the number 1,2,3,4 etc have same special features. For example the child number 2 is stubborn, number 3 listens to everyone, 5 gets material blessings, six has to be careful to whom to relate and has a job to work with people, 7 is lucky and rather feminine, number 8 can go to any place and always moving, lawyer and good speaker, 9 works very well, can become a great man, etc.

Today many people do not want to marry, and women often delay until they are almost 40 years old. But men do not want to marry women who will not have children. There are even some second generations who do not want to marry. Once there came a 14-year old to the matching, thinking that marriage is so important. We said she should return when reaching age of 17. We must understand the reason why marry. The perfection of love we cannot reach as a single. Keeping the Commandment is to stay alive, and to disobey is equivalent to throwing away life.

Jesus set the standard how to care for followers. He told the story of the one lost sheep. We do not have that attitude towards members saying that this person we do not need, it is no purpose to go after him. In contrast Jesus was looking for the one sheep who had gone astray, he was most concerned about the lost ones. We need to create teaching materials, text books starting with the kindergarten up to high school. The CSG book contains the Word of God given by True Parents. After the publication of the autobiography even many Christians see that they had done injustice to True Father, some understand that he really is the Messiah. We hand it out to our relatives. We challenge them to read it - its a matter of life and death for them....

Wednesday, January 27th, 2010

Since the Cosmic Sabbath of the Parents of Heaven and Earth was established in 1997, for 12 years Father has been working to establish the realm of absolute sex. The resulting lineage is eternal. In the fallen world the body is central. Only the True Parents can eat, walk and sleep with God and in accordance with his desire. True Parents stands in the position of high noon, they do not deviate one millimeter from the 90 degree vertical line. Father was seeking for many years for Mother, to give her spiritual rebirth and to raise her up. True Mother went a course which was hundreds of times more difficult than yours and could not complain as women often like to do, she had 4 caesarian cuts to give birth to 14 children. She was willing to die to have so many children. There is only one set of True Parents. If somebody claims "I received the revelation that I am the second True Parents" it is a lie! Last year when they left Hawai, Father said to Mother, "I have raised you pure in this fallen world". Mother never had to fast etc. - all indemnity for her was paid by Father. There could not be the slightest crack between them. It is very important that wherever Mother goes she is received well, if the doors are kept closed, the road to salvation is blocked.

True Parents invite us to enter their realm, but we have to gain victory ourselves. They are like our mind and we are like their body, there is no secret between parents and children. The removal of fallen nature is our mission. Satan watches carefully if he finds a condition to attack. Our fallen nature gives him rich opportunity. In ignorance there is no perfection. Even blessed children can go to hell because of that. Our blessed children go to universities, but many do not understand about absolute sex, many lineages are destroyed. As long as we have fallen nature, Satan has always a chance to take us away. We must watch the dividing line between good and evil in and around us, always.

The mothers should teach their children where they came from – well you come from me, you have a belly button. The Koreans say “you were born under a bridge” but in Korean the word bridge is similar to “between the leg.” Let us explain things truthfully! Adam and Eve should have been informed by Lucifer and he should report truthfully about their origin in God, how God created them and all things.

He should have presented God as their father. When they watched the animals mating and giving birth to young – this was their textbook about love and child making. Nature is the original textbook of sex education. Animals do not need permission, but humans need permission. Adam and Eve could see how the animals feed their young before they eat. They could learn how to feed, protect and sacrifice for the sake of the children. The Archangel should have invested everything in Adam and Eve, without selfish interest. But at the end he started to claim them for his own sake. The original owner of the sexual organ is God and Adam and Eve should have asked Him for permission to use it. The blessed marriage would have been the greatest privilege. Without purification of the sexual organ the human society has no hope.

God could not help Father freely, but Father created the conditions being able to receive Gods help so that the Archangel could not interfere and attack. In a way the same is true for his children, he cannot help them freely – they must also fulfill first their portion of responsibility. The 120 blessed couples had the task to guard the True Children related to the 120 nations at that time. But because there were couples who separated, some couples fought amongst each other, etc. the defense line slowly broke up until Satan could approach the True Children directly. Take care of our church with True Fathers heart.

There is no purpose to offer “Chongsong” if you do not like your church leader or fellow members. Unity comes first.

We are deeply indebted to the True Parents and their family. Hyo Jin Nim was a most wonderful son, but his father had to stand at the battle front, no time to care of him, to give him personal guidance. Think about this! One time the True Children were sitting at the breakfast table, and there came the American leaders. True Father asked them to take their dishes and go to the next room. One time little Kook Jin Nim asked him “Are you the father of Kook Jin or the 36 couples?” Father answered that if he is older he will understand. In December 1984 before the VOC rally in K. Father gave order that his children must not go outside their home. He felt strongly that Satan will attack his children. Nevertheless, his second son Heung Jin Nim went and was killed in a car accident. We often do not understand the reason, why Father gives orders. In South America we found Father sometimes sleeping on the toilet, where he just fell asleep because he was so tired. Why does he live that way? For our sake!

Ask some people to write down the names of the persons whom they really love. There are people who cannot write down a single name or only a few. Father speaks throughout the day and night because he thinks "maybe we will not meet again".

If husband and wife fight each other, there is no chance to reach perfection. Even if the children leave their parents, they still share the same lineage. If a couple separates, they fight for the children which become problematic as a result. This is a huge problem which Satan tries to spread everywhere. Father says to marry only once! Unfortunately blessings break up, but we have to state clearly that is not the original plan. I heard many testimonies in Japan from blessed couples who have one partner in the Spirit World, and that they make love often. One old lady, whom he asked, answered after some hesitation that they make love every night. Her husband comes to her as a 20-year old handsome, strong man. "When he was alive he hardly could go to toilet. Now he comes every night, and it is stronger experience than in the body." If your spouse goes to the Spirit World you should marry again, our couples are for eternity. We must long for each other so much that we really meet each night! He has to long for her like a little child for his mother, and she has to long for him like a little daughter for her father. If you are not living that way you should repent. Husband has to give to his wife more love than her father. They should send each other to heaven - that is the heart of Shimjung. If you separate, that is terrible. All masculine and feminine aspects of the Universe exist in union. Division is only for the sake of multiplication. If you blame each other, you are creating hell. In the Spirit World you can see the image of the mate in the spirit body inside of his-her spouse. Imagine! We live short on Earth, but our spirit life is endless. Hang on to each other for the sake of eternal life! We have to watch out what we are doing. Father said "In ignorance there is no perfection."

All the women are in the position of the Bride of the Messiah, in this context we have to understand the "liberation of the women". Husbands must not yell at the wife just because he wants to be the subject. Who receives the Holy Wine first? The ceremony sets only the condition for substantial restoration. Father said that couples will be accused in the Spirit World if they separate after the Holy Wine ceremony! The husband needs to bow humble before the spouse who is the bride of the Messiah. Because men and women have been fighting so much in history, the strikes of the indemnity stick should be the last and restore past failures. Father said that instead of the indemnity stick we should have a "kissing competition" for blessed couples. Can you imagine their gathered 800 people in the old church HQ in Seoul? We cramped there for a whole week. When some people just finished breakfast, the others lined up already for lunch. We tried everything to avoid touching the sisters (brothers). When

Father said "sit" we could not. But at that time it was very strict moral and we did everything to not touch the opposite sex in that cramped conditions. It was a sin, you could be kicked out!

I was in Japan and I know couple who did not love each other and had no sex in 10 years. To avoid touching each other in bed they kept a cat between them lying. So they had a good excuse "We cannot disturb the cat" Another couple did not come together, each of them had a separate bed cloth. I ordered them to have only one large bed cloth so that they would touch each other during the night. A Korean brother married the Japanese sister. He lectured and she always challenged him "Where did Father say that, show me - or is that just your opinion?" It was an incredible struggle all the time. One time there was a 40-day condition of teaching the Divine Principle. The husband was a pastor and told his congregation not to come, so he was only lecturing to his wife alone. After this period a change of hearts took place in her. In Japan you receive tens of times a day a bow "Hi". They are incredible polite. They tell even the children to be no problem in kindergarten. Very different to America or Europe! We can learn a lot from the Japanese...

Value - First we have to define what value is? The knife can be used to kill, and the knife also can be used during operation, saving a life. Value is defined by the purpose. If you live a life according to your wishes, hiding out after the Blessing, the value is little. True Parents manifest absolute values because they set the perfect standard. For example, there is one standard ruler which is kept in the Louvre museum in Paris. There is on display the model of all rulers. Of course, you can buy a ruler in any shop, but the original ruler is kept in the Louvre, it is the standard for all other rulers in the world and very precious. No human being can be the standard for other humans. In history it happened often, that a patriot to one country is considered a traitor in the neighbor nation. He served one nation, but battled against the other nation. Different evaluation of the same person in different places! There are more men than women who were in the position of a patriot. The women more often became servants of the enemy. Now with the coming of True Parents, this needs to be changed.

The period of creation lasted definitely not a 6,000 years, but the Bible is very vague on the exact period. Actually also modern science speaks of six "periods" or "ages" of development. Rich evidence of a growing period for all creation has been found. Even animal species undergo some changes over time. Humans were created incomplete so that they can exercise their portion of responsibility. Every seed carries a certain blue print inside, which is different according the specific species. Though the human body has a certain structure, there is huge variety of individual aspects of

character possible. Here, the portion of responsibility comes in, which leads the process of creating ones Self. This is the reason for keeping the Commandment and practicing absolute sex – only ripe fruit must be harvested, when in ripeness it produces a good seed. We should be aware of this fact. True Parents urge us to fulfill our portion no matter how difficult it may be. Selfish intellect and designs will not help. The portion of responsibility makes us different from animals and other created beings.

The establishment of the liberated realm is closely related to absolute sex. There is no excuse for not achieving this status! How is our mind, do we think different? Each moment is precious for achieving complete liberation in the realm of absolute sex. Life and death can be determined in a single second, we do not know the time of our death. People during all of history could not find the truth about Original Sin. True Father struggled for 40 days in the Spirit World to get confirmation about the root of Original Sin. He could not have found this truth with scholarship and study of the Holy Scriptures. Satan fears Father the most. Sometimes people have to listen three times the chapter "Fall of Man" until they realize the fundamental truth.

Our passing to the Spirit World is a serious matter. Our mind transcends time and space even during life on Earth. We travel in our mind more often than we are aware of. Who has visited all 27 member states of the European Union? I remember how difficult it was for me to enter Israel in 2003. I was alone at the airport. Finally came a woman and asked me who I am and where I wanted to go. She said "Oh, they have forgotten you." I was so confused because I had never experienced such a situation. The Spirit World is even more confusing. During life on Earth we have to bring together both worlds. Live in both worlds in a balanced and unified manner.

One time I dreamed about True Parents, and I could feel that all cells are joyful, and how all cells are sad. A profound spiritual experience! Later I told Father about my dream. In the Spirit World it is like that. Nobody there wants to go to hell, they are just sent there. Many people exclaim then, "Oh no, I want to return to Earth and live a different life!" Alas, their change of mind comes too late. We are that ignorant about the Spirit World. Some people do everything to be elected a member of parliament, even sell some property to gather enough money for the election campaign. How much do we invest to secure our position as blessed couples? Some people spend many hours watching world events on CNN. Father said it would be nice to have a TV channel showing events in the Spirit World. But a 100 years ago there was no television, today even poor people own a TV set. In the Spirit World we do not need to speak, there will be communication based on Shimjung.

Did Adam and Eve have a belly button? Father said in 2008 that all living beings come from the female.

Please pray about it, what that means! He said that nothing comes into existence from alone.

The Seunghwa ceremony cannot be held for a person who is not blessed. In Korea we had a sister who died young. Though she had the chance to receive a partner several times she rejected and said "there is no match for me." Then she died. We wanted to make a Seunghwa ceremony for her, but True Father said "No". Therefore we should bless people so that they can have Seunghwa. The spirit need nutrients similar like the body. Paradise we can enter as individuals, even having Original Sin. Heaven can be entered only by blessed families without Original Sin.

When we listen to the Divine Principle we can receive the life element from God directly. From now on the situation upon entering the Spirit World will be different. On Earth our Self is mostly feeding on elements coming from Satan, we cannot develop well. Before we go to the Spirit World, the fruit of our life should be ripe. No teacher teaches us about the reality of the Spirit World, only True Father. He knows best how the rules are there. Spirits can work only through descendants or similar characters, it is extremely difficult. While we are on Earth, until the last breath we have to invest and grow fast. Some people do not learn much even if they live until the age of 70, or 80. There is no perfection in ignorance. When husband and wife fight, our spirit body displays wounds. The wounds may be healed, but there will be visible scars. Shimjung should be perfectly expressed in the blessed family. Sins must be indemnified on Earth, only there redemption takes place. Most terrible sins are illicit love and suicide: it sends people to the bottom of hell. Our earthly life is of such great value. We determine our eternal future here and now.

In the Spirit World there are Three Stages of Judgments. The judgment of character takes place very substantially after our arrival. One example: our acceptance and love of our spouse will be tested. Imagine people who cannot appreciate their spouse for mediocre reasons. The misuse of public money is judged as well. One leader died and he had misused public money, even not a large sum. When he became sick and passed away, he realized his mistake. Experiencing clinical death, he woke up and told his wife not to touch the money in his wallet because it belongs to the church. Public money is like poison. Father once gave money, some larger sum. None of the recipients returned it "oh, that is too much." Father was watching how they reacted. Sometimes Father gives more money as needed or requested. Everyone present says "wasting money" but Father has some reason to do so.

A temptation requires a lot of wisdom. The tempter is wiser than the tempted. The high school student may tempt a kindergarten student, not vice-versa. The more a civilization is developed, the more rise sexual crimes. Many kingdoms collapsed because of fornication. AIDS is passed on quickly because of prostitution, it is rampant. The only alternative is absolute sex. Adam was 16 when he fell, today many teenagers fall. Lucifer tempting Eve we can compare to an uncle or worker taking the daughter of the house. Today many (step) fathers have sex with their (step) daughters, as well as other incest relationships. When Eve was small, the Archangel sat her on his knees. They fell not only one time, it happened many times. Eve was told that she would die, but she was already deeply involved in sex. Eve touched Adam on many places and caused him to fall. God was forced to watch his children committing fornication in the Garden of Eden. Can you imagine how it was for God? God was not allowed to hate them and the archangel, because of unchanging and eternal love. Since, Satan challenges continuously "you must love me". First True Father could not understand why the Creator endures this horrible situation. Only when Father discovered the world of Shimjung he understood – God must (!) love the enemy. We should console God, not vice-versa: my pain is short time, but God suffered over the ages. Satan became the king of the world using the lineage. Jealousy, arrogance, temper and stubbornness are aspects of fallen nature we must get rid of.

Last Days – the passages in the Bible about "great fire which melts the elements" could be interpreted as the power of true love which will melt all hearts, removes all evil elements. The high interest in spiritual phenomena and spiritualists shows that a new age has arrived. Unfortunately there have been many predictions of "End of the World" and cannot believe anymore that it is really coming. It is like the call "the wolf is coming..." which was several times a false alarm, but finally people paid no attention, even the wolves really came. There are people among us from time to time who claim to be the Messiah. Among them is one who claims to be the illegitimate son of Father, which is complete nonsense. When there was the ODP seminar in Haiwai there was one of them – a Japanese man married with a Korean wife. I suppose they soon will make their own ODP seminar confusing members at home. I do not know what will happen with such people at the end.....

If Jesus would have completed salvation, we would live a life of attendance, and not a life of faith.

Only the worst crimes were punished on the cross – Jesus died like a traitor. Later Christian leaders tried to justify his execution, and developed the concept of “Salvation by the Cross”. The justification was based also on the story of Peter, who told Jesus not to die and Jesus in his reply called him “Satan”. Jesus saw that Satan through Peter tried to block the way of spiritual salvation. Father clearly stated that this is a wrong concept. Christians call us heretics because we oppose the cross. They say that we are not Christians because we have no cross in our church building. In reality, humanity 2,000 years after Jesus is not saved.

Israel is not a very fertile land, surely not a place where milk and honey flow. Back in Abraham's time, the good land was already occupied by satanic tribes, and the chosen people had only rocky land and desert to settle. God could give them nothing better. Also Father was buying huge land of low quality to gain land for providential purposes. Apostle Paul was well educated in the Scriptures and knew about the mission of the Messiah from the Jewish point of view, and he could not understand why Jesus ended this way. Paul struggled. Later he found an explanation for the suffering course. Right now Paul is struggling with his failure to keep up the original plan of salvation, and that he invented a doctrine which confuses Christianity until today. Sure, by the cross spiritual salvation is possible, but incomplete, and Jesus clearly stated that he had to return for completing his mission. After 33 years of life and three years preaching the Son of God had only one person to take to Paradise – the thief on the right. How terrible! Apostle Peter, whom he had taken aside and tested in his faith, had betrayed him. Thus, not one of his disciples could follow him into Paradise. The Roman soldiers tried to shorten his suffering by piercing his heart with a spear. John the Baptist was a great prophet, nevertheless he failed. We must never turn against True Parents, follow them in any circumstances, never betray them – otherwise we fail as the Jews and Christians did.

“Resurrection” as it is mentioned in the Bible is different from the general concept of “life” and “death”. Adams body functioned after the Fall as before, but his heart and mind were cut off from God. He could not feel and receive vertical love. What brings resurrection? The Word of God! While listening to the lecture, your heart feels more and more joyful – the resurrection can be seen in your faces. Open the window to your heart and receive the joyful message of the Messiah living on Earth! In contrast to the few dozens of the Gospel which fed Christian souls over 2,000 years we are so lucky to have hundreds of volumes with Fathers speeches. Plenty of spiritual food! When I give lectures, I too receive Gods love. I feel from hour to hour more uplifted. I cannot pay attention to the translation but focus my mind hundred percent on messages flowing down from above. If somebody believes in Jesus, will he enter Paradise or

Heaven? No, we have to restore people to the original state. Fallen people must be recreated! People in the Spirit World want to resolve their past failures, but because they have no physical body, they feel great agony not knowing what to do. There are hundreds of billions people in the Spirit World, maybe there are thousands of spirits behind every human on Earth. Imagine, there are hundreds of people in the invisible surroundings who want to cooperate with you. There are spirits come down who committed grave sins and who punish people or descendants on earth to make them change. God does not relate with sinners because he is absolutely good. People have to make conditions so that he can come to them.

Christians are very surprised or even shocked when they hear that Jesus had sexual organs, and that he could enter only Paradise. Heaven is reserved to families perfected in the love of God. One Japanese professor came to me. He was so desperate because in his family all have a different faith, even Communist. Every time they got together they were fighting. He asked what he should do. The answer lies "Returning Resurrection" which will unite all believers and conscientious people....

When we lived in the old HQ in Seoul, a spiritual master visited us. He had revelations telling him that there many people coming from around the world to study this new message. At that time we had no table for our meals but instead spread newspapers on the floor and put the dishes there. The spiritual master wanted to eat with True Parents, but was asked to eat with members on the floor. He was offended and left. He wanted to attract attention, he was not willing to attend and serve. There came many people like him, old grandfathers in white cloth and a staff. Yo-Han Lee received revelations to have a messianic mission, and he had many followers. When he first visited Father, he gave him a can and asked him to fetch dinner. Imagine this humiliation! Nevertheless, Yo-Han Lee did as asked. Though he is such an experienced lecturer, he is humble until today and comes to listen to these lectures.

Predestination – differing doctrines caused a lot of confusion among Christians. Even in the Bible there are parts which give clear evidence that "faith alone" will not save us. Action is needed too! Actions relate to our portion of responsibility. The predestination doctrine contains also the notion, that a person is destined for a glorious position, another for a low position. Actually, qualified persons like professors or ministers claim high respect, tend to be arrogant. If the high position is taken from them, they become resentful. Such situations I have witnessed even in our church regularly happening. When I asked to go to a lower position I saw it as opportunity to get to know new things, or that in this place they needed me more. Some said, that there also a young member could suffice. But a

young inexperienced person may not be so helpful there. Please remember this point!

True Father has only one sister alive in North Korea, but he cannot bring her out, because he wants to liberate all of North Korea. This is the difference. Father never thinks only about "my family". He feels that all kinsmen should be free.

When Hyo Jin Nim was small, there arrived a big car from America as present for True Father (from 777 Couples Blessing). It was a "Lincoln" and that time only the Korean president had such a car. The government made problems at the customs and gave the car for auction. Our members bought it (a second time). Somehow the car got damaged and Father was very sorry that he could not offer it to God in that imperfect state. Some members said that for such a large sum of money could have been purchased several church buildings. Only Hyo Jin Nim was happy and proudly showed the car to his friends telling them that his father rides in a car worthy a president. True Father said to the church leaders "Look that is the difference between him and you." Fallen man is unable to think and feel centered on Shimjung. Father's little son felt quite naturally.

Cain's portion of responsibility in the course of restoration was to submit to Abel. Abel had to share the blessing from God with his brother. Cain cannot touch Abel, absolutely not. If Cain sees that Abel does something wrong "Oh, our leader is looking strange...." He should pray, if he is wrong or they have the wrong view. Cain must not accuse Abel whatsoever...

If a church leader brings home only little money, and the wife says that is not enough and that he should quit the job in the church and they start to argue and fight - will there be grace in that family? God's will not take sides, the couple has to stop fighting. We have seen many situations like that. If the husband goes to the church on Sunday, he has no power to preach. In this situation the members have to prepare for him a good environment, so that he can fully concentrate and preach. If he shares with them freely from the bottom of his heart, he will receive grace which he can take back to his family.

Abraham's wife Sarah maintained her chastity when she was in the Palace, though she was offered all riches - beautiful cloth, etc. She used tricks like putting terrible smells on her body so that the Pharaoh would not touch her. Most women would have accepted the offer to become the wife of the king, but she resisted the temptation successfully. Sarah maintained her chastity a second time when she was taken to the house of Abimelech....

Abrahams Sacrifice: The animals were chosen according to their characteristic - sheep is easy to handle, the goat is stubborn. As sacrifice were often chosen cows not horses, because horses are used in battle. Abraham did not pay attention to the birds, he did not listen carefully to Gods requirements, took it lightly. It was a small task to cut the birds. We often tend to ignore smaller requirements, and afterwards there arises a big problem. When Abraham sacrificed Isaac and he would have hesitated at the altar only one second, then Satan could have invaded. How agonizing this was for God to watch! Every failure in his family was multiplied over generations and ages....

Jacob had 4 wives (2 were servants) and 12 sons and many daughters as well. There were constantly fights among the children. Jacob did not speak, not taking sides. Which son should he prefer? Then the 11th son was born - Benjamin he loved him most. Joseph was a handsome man, the wife of his master was attracted to him, she called him to the bedroom and took her clothes off. But Joseph resisted the temptation and run away. The wife lied to her husband and Joseph was arrested. Obviously Joseph did not make excuses and did not accuse the woman (contrary to Adam who blamed Eve). This was an important step in the providence. No one understood until now why the Israelites were chosen, it is a question of restoring the purity of the lineage. Jesus could be born without original sin from a fallen woman because of such conditions. If after the 400-year period was over, the Israelites would have united with Moses in the first course the Messiah would have been born in Egypt.

Moses and Jesus went a similar course. The Bible speaks about the "secret of salvation". God did not reveal clearly the necessary conditions and steps so that Satan could not take advantage of and divert them. The exact plan was hidden in Gods heart and only revealed when the relevant situation arrived. The third temptation of Jesus can be compared with an excellent job offer which takes us away from mission work. The second temptation is connected to sexual desire - you cannot dominate the created world, if you cannot control your hunger for love making.

Satan took the corpse of Moses and Jesus. Even corpses need to be treated respectfully. It is not right to burn the body, even less to throw the ashes somewhere. Among us is a member who told such an incredible story: His uncle died just before we started our workshop. The nephew was troubled if he should attend the funeral or stay at the workshop. He stayed, and one night his uncle appeared in his dream and said "Do not worry that you could not attend my funeral. "I also did not attend my funeral but prefer to stay with you listening to these lectures." He even

apologized that he did not support his nephews blessed family more during his earthly life.

God wanted Moses to visit and challenge the Pharaoh. First Moses rejected because he knew the Pharaoh well enough and doubted that he could convince him. The three miracles – the second miracle with the leprous hand relates to original sin which was incurable as leprousis was incurable until recent times. The Pharaoh did not listen until Egypt was punished three times severely. From 600,000 men who left Egypt only two arrived in the Promised Land. The vast majority lost faith on the road to Canaan. Today the Jordan River is rather small and one could almost jump across it, but when the Israelites crossed it was much wider, a terrific river. The Israelites hesitated, but the Arch of Covenant which went first gave them courage. In 1965 Father visited Palestine, also the ruins of ancient Jericho. Thanks to the faith of Joshua and Caleb God could continue the providence. We must study their course because our children relate to the second generation Israelites who entered Canaan (and become assimilated).

The circumcision has three aspects – skin, blood, heart. All three must be cut, and the satanic elements must be removed from all three. The people attacked Jesus because they thought that he does not respect the Temple. But the tabernacle and the temple were created only as image of the Messiah. When Jesus arrived, there was no need for the Temple – its mission ended. Jesus, the Messiah was the substantial temple.

Mary was kicked out from Zacharias house; John the Baptist had a younger sister who was supposed to become the bride of Jesus. There is nothing strange about it. Adam and Eve were brother and sister; we must see the context of restoration. When Jesus was 17, he urged Mary to give him this bride. His mother could not understand why she should do this, it seemed impossible. Jesus argued with her during the Wedding of Canaan. When Mary rejected, he left his parents and started to witness alone. We must relieve Jesus from his sorrow and grief by teaching these facts...

True Father was sentenced to Danbury prison because the translators made grave mistakes; there is evidence and preparations are made to sue the US government. They will have to pay a high sum of compensation for the injustice done to Father. He endured the prison and said that he would go again if needed. Nevertheless, justice must be done!

Saturday, January 30th, 2010

All historians and nations have their own view of history, but their interpretation of historic events often differs from the providential history revealed in the Divine Principle. The sweat, blood and tears shed by God,

the sorrowful heart of God during the ages, remained unknown. Because our ancestors have paid indemnity we can sit here and listen to the DPO. The goal of history is the unified world which one day will be realized. Christian always dreamed about Jesus returning to the Earth. Let us be grateful that True Parents have settled on Earth. Koreans are best prepared to understand Gods suffering heart. We should be aware that True Parents have been misunderstood, ridiculed and persecuted like Jesus at his time. Imagine what Christians would do if Jesus came back in his body! Now is the time to restore historical failures, a unique opportunity which will never come again. What has happened to the first Christians? They were passionately witnessing though they faced imprisonment and execution. Go to the Colloseum in Rome, read about their sufferings! Some of our members are like the wife of Lot who after leaving Sodom looked back and became a column of salt.

The Japanese forced Koreans to adopt their language and traditions; they had to wave the Japanese flag not the Korean. In school they could not speak Korean but Japanese. They visited the villages and took the best crops and sent them to Japan; the Korean farmers had nothing for to feed their own children. Japan was planning to conquer China and eventually to invade Europe! They punished Koreans, cutting their hands or feet off. Many patriots who fled across the border died of hunger. A 16-year old girl was a key figure of the Independence movement, shouting loudly "Mansei" even when she was tortured to death. Nevertheless the Messiah was not received by his kinsmen but was vilified as a heretic. Now, that Father is already 90 years old, he receives slowly recognition. How wonderful it would be if he had received that at the age of 20 or 30 year! The traditional philosophy of Koreans is 1st to respect Heaven and 2nd love mankind. At the entrance of every village there was an inscription "We are a people of filial piety". We have the proverb "Even birds would cry" to express deep grief. Loyalty, fidelity and chastity have been the most important traditional virtues.

During the Korean War many Americans and Europeans shed their blood in Korea; this is one reason you are here listening these lectures. In 1965 the Little Angels were founded despite great financial burden on our members; they had the mission to connect the Western world with Korean nation. Father wanted to return something precious to the nations which fought for the liberation of the Korea. Many people thought that Rev. Moon has a lot of money to do so, but that was not true. Nowadays North Korea cannot invade the South easily because True Parents have established a worldwide foundation. The last years North Korea sent expensive birthday presents for True Parents. Kim Jong-Il really respects the True Parents; can you imagine that he honors them more than we members do? The last shall be the first, says the Bible. If Father orders Kim Jong-Il to prepare a

large Blessing event, it will happen. The Korean unification will come through the lineage. Look how difficult the unification of East and West Germany based on political and economic interest was. If North Korea had participated in the Olympic Games in Seoul, the unification would have happened much easier and earlier.

The removal of the division at the 38th parallel cannot be done by people only by Heavenly intervention. In 1991, True Father challenged the North Korean leaders telling them that their ideology was false. No other person would have dared that! It was like asking for the death sentence. Even today Kim Il-Sung is revered like a God. There were some posters of him exhibited in South Korea and rain fell on it; there came some North Korean women and they put the umbrellas over the pictures of Kim Il-Sung so that it does not become wet. How well do we protect the picture of True Parents? Even though North Koreans stand on Satan's side, they attend their leaders very well. Nevertheless they are very proud and do not accept help easily. A few years ago there was a famine. We wanted to give aid to the workers of our car factory. The workers reacted very angry "What you think? We are not beggars!" Though they were very hungry they objected to receive food. In South Korea we already prepare to bring trucks with clothing to North Korea in the near future.

Wherever we go we should leave something positive behind. Nowadays people go around and take as much as they can. Everything has become very individualistic; people lose the ability to live for the sake of others. That does not exist in the animal world, not in the whole of creation. Members have a different tradition; we put so much trust in True Parents to let them choose our spouse. People who breed pedigree dogs research carefully the male lineage and the female lineage before they let their dogs mate. Every handicap or character aspect is recorded carefully and taken into consideration. The Koreans are also very careful about the lineages of spouses.
