

Dear Dr. Balcomb,

This letter is to notify you of my resignation from FFWPU and HSA-UWC ("the World Church") as organizations lead by Dr. Hak Ja Han.

However, my faith and belief in God, True Father (Rev. Sun Myung Moon, the Messiah and the Second Advent), and in His teachings, especially the Eight Great Textbooks bequeathed from True Parents to the humanity for eternity, remain unchanged.

I also appreciate and am grateful for Dr. Hak Ja Han's accomplishments and victories as True Mother, her unity with True Father as declared and praised by True Father. She was True Mother, the Bride of Christ, restored Eve, who had been prepared for, and found and brought up by True Father to the stage before the Fall.

However, "unity" is not realized by a one-time action or declaration. "Unity" is a state to be continued for life (or eternity). The declared unity of True Parents was to establish a condition and foundation for the ever-lasting unity of True Parents in the original world that didn't see the Fall. True Father declares many things in order not to lose a certain foundation established by a certain victory or fulfilled condition, even if something goes wrong after that (from Sa Kilja's Testimony to the words regarding the Divine Principle). Accordingly, after Mother was restored to Eve's position before the Fall (the completion of Adam's responsibility) and the unity was declared, she had her own responsibility as the restored Eve to overcome temptations from the Archangel, similarly to the first Eve, as well as to restore historical Eve's unfulfilled responsibilities such as Mary's failure to protect and support Jesus, and to remain faithful and obedient as an object partner to her own husband/subject partner until the end, since the first Eve controlled the first Adam to fall. I also hoped that Mother could show us a role model of a wife and mother in the original world where love and respect are freely given and received between husband and wife on the four position foundation. (In this regard, I repent that I myself failed at many times properly respect my husband whom God chose for me and gave to me.)

The World Church is claiming Mother's perfectness and complete unity with True Father, regarding what Mother says/does as what True Father/True Parents says/does. However, in actuality, facts, testimonies, and various evidences, which are available for seekers, but typically not mentioned or revealed by World Church leaders, tell otherwise. My own research and observations lead me to the same conclusion: Mother is not united with True Father, and tragically failing to fulfill the responsibility at the final hour, despite her 50+ years of obedience, loyalty, and faith in True Father. I'm so sorry to say this. I didn't come to this conclusion without pain and grief.

Mother and World Church leaders seem to be doing everything that True Father repeatedly told not to do, altering the words of True Father, touching the Eight Great Textbooks, among others. I attached an example at the end of this letter.

In addition, God's lineage brought by True Father on earth is in Hyung Jin Nim and his family. Only Hyung Jin Nim keeps the pure, unstained blood lineage from God through True Father. He and his wife were publicly blessed, declared, crowned, and anointed three times by True Parents, centering on God, as the successor and inheritor of True Parents. The teaching of True Father was also bequeathed though a set of textbooks wrapped in a wrapping cloth. Since the Kingdom of Heaven on Earth was not established during True Father's life, it is apparent from the Principle of Restoration that we have to

go through a three-generation course. Our responsibility is to protect and support this lineage for the future generations. (The Messiah didn't come just for us living on earth now. He came for all of the humanity, in the past, present, and future.) We have to create a foundation for the second King, then for the third King during whose time the Kingdom of Heaven should be established on the earth. This can't be done by the power of human beings; we need the living God and the power and spirit of True Father, which are with True Parents' heir standing on the foundation of the united True Abel (Hyung Jin Nim) and Cain (Kook Jin Nim) who remain and continue to be united.

Accordingly, in order for me to be faithful and remain faithful to God, True Father, and His teaching, and to live in accordance with God's Will, I have joined Sanctuary Church, and am hereby officially resigning from FFWPU and HSA-UWC.

Sincerely,

Masako Ando

PS. My internal decision was made on March 13, which was my spiritual birthday, after watching the first seven sermons of Hyung Jin Nim. It was just like my finishing a 7-day workshop and joining CARP 30 years ago. I fully understand Jim and Hiromi Stephens' course as I also went through the same.

CC: Pastor Kevin Thompson, Rev. Hiroshi Inose

Attachment: Comparison of "Owners of Peace, Owners of Linage" in the original Korean text and that in Pyeong Hwa Gyeong

(1) Korean "Owners of Peace, Owners of Lineage (OPOL)" (long version, P. 110-111, an unofficial literal translation of Korean text):

"When I look at in this way, I have no worry. Although I'm leaving and abandoning the United States, I've made teaching materials. They are Mother's teaching materials, and your teaching materials. If Mother can't do it, or has made mistakes, you have to be able to say, "Mother, you have to repent. Unless you receive the Blessing again from me, there is no way for you to live." Since the Teaching materials which can re-bless Mother have appeared, there are no ancestors of Hoon Dok Hwe other than you. The second generations will become family Hoon Dok Hwe leaders. If it won't be that way, nobody can do it."

(2) Edited OPOL in Korean Pyeong Hwa Gyeong (P.1627, an unofficial literal translation of Korean text):

"When Teacher looks at in this way, there is nothing to worry. Although I'm leaving the United States, I've made Teaching materials. They are your teaching materials. If your fathers and mothers have made mistakes, you have to be able to say, "Father, Mother, you have to repent. Unless you receive blessings again through me, there is no way for you to live." Since the Teaching materials which can re-bless your fathers and mothers have appeared, there are no ancestors of Hoon Dok Hwe other than you. The second generations will become family Hoon Dok Hwe leaders."

(3) Deleted text:

abandoning

They are Mother's teaching materials

(If Mother) can't do it, or  
If it won't be that way, nobody can do it.

(4) Added or altered text:

I --> Teacher

Mother --> your fathers and mothers

Mother --> Father, Mother

from me --> through me

Mother --> your fathers and mothers

Comments (with personal interpretation):

In the original text, it is clear that the teaching materials (the 8 Great textbooks, including this OPOL) are for Mother and for the second generations. "If Mother can't do it, or has made mistakes" indicates that there is such a possibility that Mother can't follow or maintain the teaching of the textbooks, or will make mistakes (as actually happened). Then True Father talks to the second gen youths that they should be able to say, "Mother, you have to repent. Unless you receive the Blessing again from me, there is no way for you to live." Here, "Mother" is not their mothers, but Han-Mother. But how can the second generation youths "bless" Mother? Who can tell Mother to repent? Who have such authority to re-bless Mother? Why does Mother have to be blessed again after repentance?

The second generation who has the authority to give the blessing is none other than the Hyung Jin Nim/Yeon Ah Nim couple.... It should be noted that "Owner of Peace, Owner of Lineage" speech was made on 7/7/2009, after Hyung Jin Nim and Yen Ah Nim were crowned as the successor in 2008. Then, TF might be actually talking to Hyung Jin Nim and Yeon Ah Nim. Why re-blessing? Re-blessing would be necessary only when the first one was broken... Then, this may indicate Mother's (spiritual) fall, breaking apart from TF. The only way for Mother to live is to repent and return to Hyung Jin Nim and receive blessing from him... This looks like TF's dire prophesy. (However, it also means that Mother still has a way to live through repentance and re-blessing, which we all are asking and praying for). However, in the edited ("polished") Korean text in Pyeong Hwa Gyeong, Mother has completely vanished from the context, and the text becomes as if TF is talking about the first gens' possible faithlessness or mistakes and the second gens' leadership in their families. This is NOT what True Father was actually talking about. Of course, no other (hidden) message can be discerned from the text. Also, "from me" has been changed to "through me." This is also interesting since "from me" indicates "me" is the person giving the blessing, but "through me" indicates there is someone else who gives the blessing.

You can see manipulation by the editors who want to make Mother be a faultless idol to worship (sorry), and eliminate the heir's authority.

This is just an example, but we can see the importance of not changing a single word of TF's speech (as TF ordered), as it may have to be interpreted by the future generations, similarly to the Bible. "Polishing" the text actually kills the life and spirit of the TF's words which was brought in through TF's blood, sweat, tears, and his overcoming seven deaths (as TF said).
